

**COMPLIANCE ASSISTANCE BULLETIN**  
August 2017

**NEW GASOLINE VAPOR RECOVERY TESTING 24 HOUR PASS/FAIL ON-LINE NOTIFICATION SYSTEM –  
MANDATORY BEGINNING AUGUST 21, 2017**

Per District Rule 1177, Section 9.8: *A Certified GDF Tester shall notify the District of the pass/fail status of all gasoline vapor recovery performance tests within **24 hours** after each test is conducted. The notification shall be provided in accordance with methods prescribed by the District.*

In an effort to streamline the 24 Hour Notification process for reporting the status of vapor recovery testing, the District is implementing a NEW online reporting system.

The new 24 Hour Notification system is available for use now. You may access the 24 Hour Notification form at: <http://www.valleyair.org/gvr24hournotification> . We encourage that you begin using it as soon as possible.

**Beginning August 21, 2017, the District will only accept 24 hour notifications reported via the new online system. The OLD 24 Hour Notification Telephone Hotlines for each region (Northern, Central, and Southern) will no longer be available for use starting August 21, 2017.**

**Also beginning August 21, 2017, the District will no longer provide courtesy requests for 24 hour notification which have not been received.**

If you experience any issues using the new 24 Hour Online Notification reporting system or, if you have any questions, please contact Donny Hockett at (559) 230-5885 or donny.hockett@valleyair.org or the Compliance Department at (559) 230-5950.
