Description of Project: This is a rule development project to amend existing District Fees: Rules 3010, 3020, 3030,
3040, 3050, 3060, 3070, 3090, 3110, 3120, 3135, 3147, 3140, 3150, 3155, 3160, 3180, and 3190. These rules apply to
any applicant that is subject to the rules. The purpose of this rule amendment project is to remedy the shortfall of
programs. In addressing the shortfall, the amendment is proposing an increase in fees by 4.8%, effective July 1, 2015
and by 4.4%, effective July 1, 2016 for the rules listed above except for Rule 3050. For Rule 3050, the District is
proposing a 37% increase in fees, effective July 1, 2015. In addition, for Rule 3010, the District is clarifying that hourly
evaluation fees associated with the processing of permits are payable based on time spent regardless of the
application's eventual disposition. For Rule 3030, the District is proposing to implement an excess emission fee per
pound for each variance with excess emissions. The proposed excess emissions fees would be capped per variance
for both small businesses and other petitioners, effective July 1, 2015. For Rule 3040, the District is proposing to create
a non-tiered, per location, fee structure and increase the Burn Day Exemption fee, effective July 1, 2015.
