

Table of Contents

Executive Summary

| | |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <i>Plan prepared with extensive public input.....</i> | ES-1 |
| <i>What will this plan do?</i> | ES-2 |
| <i>Guiding Principles</i> | ES-3 |
| <i>Why has this plan been prepared?</i> | ES-4 |
| <i>Valley's challenge is greater than any other region in the nation</i> | ES-5 |
| <i>Building on past efforts to achieve cleaner air</i> | ES-7 |
| <i>What amounts of additional reductions are needed?</i> | ES-8 |
| <i>How difficult is it to reduce NOx emissions by another 75%?</i> | ES-8 |
| <i>How do legal jurisdictional boundaries assigned to various governmental entities affect the design and implementation of this plan?</i> | ES-9 |
| <i>What is the strategy for attainment?.....</i> | ES-10 |
| <i>Why is an "Extreme" attainment plan required?</i> | ES-12 |
| <i>Journey to Attainment.....</i> | ES-14 |
| <i>What additional requirements are triggered by an "Extreme" designation?</i> | ES-16 |
| <i>"Extreme" designation has onerous ramifications. Is not submitting a plan an option?.....</i> | ES-16 |
| <i>Public Accountability</i> | ES-16 |

Table of Contents

Acronyms and Glossary

Chapter 1: Progress and Current Air Quality

| | |
|---------------------------------|-----|
| 1.1 Introduction..... | 1-1 |
| 1.2 Adopted Rules | 1-1 |
| 1.3 Current Air Quality | 1-1 |
| 1.3.1 Emissions | 1-2 |
| 1.3.2 Air Monitoring Data | 1-4 |

Chapter 2: Meeting Federal Requirements

| | |
|-----------------------------------------------------------------------------|-----|
| 2.1 Introduction..... | 2-1 |
| 2.2 Health Effects | 2-1 |
| 2.2.1 Other Effects of Ozone | 2-2 |
| 2.3 Health-Based Standards..... | 2-3 |
| 2.4 Classifications and Requirements | 2-4 |
| 2.5 Federal CAA Planning Requirements Addressed by the 2007 Ozone Plan..... | 2-7 |
| 2.5.1 Reasonably Available Control Technologies (RACT)..... | 2-7 |
| 2.5.2 Attainment Demonstration | 2-7 |
| 2.5.3 Reasonable Further Progress (RFP) Demonstration | 2-8 |

| | |
|----------------------------------------------|-----|
| 2.5.4 Contingency Provisions | 2-8 |
| 2.5.5 Major Stationary Source Threshold..... | 2-8 |
| 2.5.6 Offset Requirements | 2-9 |
| 2.5.7 New Technologies | 2-9 |
| 2.5.8 Other Requirements..... | 2-9 |

Chapter 3: What is Needed to Demonstrate Attainment?

| | |
|------------------------------------------------------------|------|
| 3.1 Introduction..... | 3-1 |
| 3.2 Challenges..... | 3-1 |
| 3.2.1 Natural Conditions | 3-1 |
| 3.2.2 Population Growth | 3-4 |
| 3.2.3 Jurisdictional Limits and Regulatory Authority | 3-4 |
| 3.3 Modeling..... | 3-6 |
| 3.3.1 Model Choice | 3-6 |
| 3.3.2 Base Case | 3-6 |
| 3.3.3 Weight of Evidence | 3-7 |
| 3.3.4 RRF | 3-8 |
| 3.4 Carrying Capacity..... | 3-8 |
| 3.5 PM2.5 Considerations | 3-14 |

Chapter 4: Strategy

| | |
|---------------------------------------------------------|------|
| 4.1 Introduction..... | 4-1 |
| 4.2 Overall Approach..... | 4-1 |
| 4.2.1 Integration of Ozone and PM2.5 Strategies | 4-1 |
| 4.3 Four-Faceted Control Strategy | 4-2 |
| 4.4 State and Federal Components..... | 4-4 |
| 4.5 Support from Other District Programs | 4-4 |
| 4.5.1 Compliance/Enforcement..... | 4-4 |
| 4.5.2 Public Education, Awareness, and Information..... | 4-6 |
| 4.5.2.1 Programs..... | 4-6 |
| 4.5.2.2 Events..... | 4-10 |
| 4.5.2.3 Materials..... | 4-11 |
| 4.5.3 Environmental Review | 4-12 |
| 4.5.4 Sustainable Incentives | 4-13 |

Chapter 5: Public Accountability

Chapter 6: District Regulatory Control Measures for Stationary Sources

| | |
|-------------------------------------------------------------------------------------|-----|
| 6.1 Introduction..... | 6-1 |
| 6.2 Regulatory Component..... | 6-1 |
| 6.2.1 Process for Identifying and Evaluating Potential Control Measures..... | 6-2 |
| 6.3 Implementation Schedule for the Stationary Source Regulatory Component | 6-4 |

Chapter 7: Action Plan for Reducing Emissions with Incentive Funds

| | |
|----------------------------------------------------------------------------------------------|------|
| 7.1 Introduction..... | 7-1 |
| 7.2 District Experience to Date in Administering and Implementing Incentive Programs..... | 7-2 |
| 7.2.1 Heavy-Duty Engine Emission Reduction Incentive Program | 7-2 |
| 7.2.2 REMOVE II Program | 7-3 |
| 7.2.3 Light and Medium-Duty Vehicle Incentive Program | 7-4 |
| 7.2.4 Electric Lawnmower Incentives | 7-4 |
| 7.3 Existing Funding Sources in the San Joaquin Valley | 7-4 |
| 7.3.1 DMV Surcharge Fees | 7-5 |
| 7.3.2 Carl Moyer Memorial Air Quality Standards Attainment Program | 7-6 |
| 7.3.3 Indirect Source Review and Voluntary Developer Mitigation Control Funds | 7-6 |
| 7.4 Potential Sources for Additional State and Federal Funding | 7-7 |
| 7.5 Enhancing SIP Creditability of Incentive Based Emission Reductions | 7-7 |
| 7.5.1 Introduction | 7-7 |
| 7.5.2 Background | 7-8 |
| 7.5.3 Draft Changes to Incentive Program Operation | 7-9 |
| 7.5.4 Conclusions and Next Steps | 7-13 |
| 7.6 District Action Plan for Existing and Future Incentive Funds | 7-14 |
| 7.6.1 Potential Incentive Measures | 7-14 |
| 7.6.2 Recommended Funding Levels for Incentive Control Measures | 7-57 |
| 7.6.3 Incentive Measures for Possible Future Consideration ... | 7-61 |
| 7.7 Legislative Action Plan for Securing Proposed Funding | 7-62 |

Chapter 8: Innovative Strategies and Programs

| | |
|-------------------------------------------------------------|-----|
| 8.1 Introduction..... | 8-1 |
| 8.2 Program Descriptions | 8-1 |
| 8.2.1 Green Contracting..... | 8-1 |
| 8.2.2 Expanded Spare The Air Practices (or Effects) | 8-2 |
| 8.2.3 Employer Based Trip Reduction | 8-2 |
| 8.2.4 Heat Island Mitigation | 8-3 |
| 8.2.5 Alternative Energy Production | 8-4 |
| 8.2.6 Energy Conservation | 8-5 |
| 8.2.7 Enhanced Indirect Source Review | 8-6 |
| 8.2.8 Episodic and Regionally-focused Control Measures..... | 8-7 |
| 8.2.9 Advanced Emission Reduction Options (AERO) | 8-7 |

Chapter 9: Local, State, and Federal Controls

| | |
|-----------------------|-----|
| 9.1 Introduction..... | 9-1 |
|-----------------------|-----|

9.2 Local Component: Measures to Reduce Emissions by Improving Vehicle Use 9-1
 9.2.1 Legislative Requirement 9-1
 9.2.2 Local Reasonably Available Control Measure Strategy 9-3
 9.2.3 Conformity Budgets 9-8
9.3 Summary of the New Statewide Strategy Under Evaluation by the Air Resource Board Staff 9-9

Chapter 10: Reasonable Further Progress

10.1 Introduction..... 10-1
10.2 Reasonable Further Progress Requirements 10-1
10.3 Reasonable Further Progress Calculations 10-2
10.4 Reductions Beyond RFP for Contingency 10.4

Chapter 11: Conclusion

11.1 Introduction..... 11-1
11.2 Summary of Control Strategy Emissions Reductions 11-1
11.3 Discussion 11-2
11.4 Major Source Thresholds..... 11-5
11.5 Long-term measures 11-5
 11.5.1 Alternative Energy Sources 11-6
 11.5.2 Advanced Retrofit/Replacement Technologies 11-8
 11.5.3 Smart Growth/Land Use 11-9
11.6 Contingency Measures 11-10
 11.6.1 Contingency Measures for RFP Milestones and Attainment 11-10
 11.6.2 “Black Box” Contingency Requirements 11-13

Appendices

Appendix A: Ambient Air Quality Data

| | |
|------------------------------------------------------------------|------|
| A.1 Introduction | A-1 |
| A.2 Ambient Air Quality Data | A-1 |
| A.3 Trend and Spatial Variations | A-6 |
| A.3.1 Local Trends..... | A-6 |
| A.3.2 Number of Days Above the Eight Hour Ozone NAAQS..... | A-8 |
| A.3.3 Difference Between Urban and Rural Ozone Response | A-11 |

Appendix B: Emissions Inventory

| | |
|----------------------------------------------------------|------|
| B.1 Introduction | B-1 |
| B.2 Emissions Inventory Tables | B-3 |
| B.3 Emissions Inventory Calculations and Revisions | B-9 |
| B.3.1 Emission Factors and Emission Equations..... | B-9 |
| B.3.2 Emissions Inventory Updates | B-10 |

Appendix C: Local Controls: Conformity and RACM

Appendix D: Emission Reduction Credits

| | |
|--------------------------------------------------|------|
| D.1 Introduction | D-1 |
| D.2 Pre-Baseline Emission Reduction Credits..... | D-1 |
| D.3 List of ERCs..... | D-11 |
| D.4 Cap on Growth..... | D-33 |

Appendix E: Triennial Progress Report for the California 1-hour Ozone Standard

| | |
|--------------------------------------------------------|------|
| E.1 Introduction | E-1 |
| E.1.1 Triennial Plan and Progress Report History | E-1 |
| E.1.2 State Requirements and Guidance..... | E-2 |
| E.2 Ambient Air Quality Data | E-3 |
| E.3 Ozone Air Quality Indicators..... | E-3 |
| E.3.1 Expected Peak Day Concentration (EPDC) | E-4 |
| E.3.2 Population-weighted Exposure (PWE) | E-9 |
| E.3.3 Area-weighted Exposure (AWE)..... | E-10 |
| E.4 Transport Mitigation | E-11 |
| E.5 District Control Measures | E-12 |
| E.6 Mobile Source Control Measures | E-15 |
| E.6.1 District Committed Measures | E-15 |
| E.6.2 Voluntary Programs..... | E-15 |
| E.6.3 Land Use Programs..... | E-16 |
| E.7 Plan Revisions | E-17 |
| E.7.1 Control Strategy..... | E-17 |
| E.7.2 Expected Reductions..... | E-19 |

Appendix F: Photochemical Modeling Support Documents

F.1 Introduction..... F-1
 F.2 Approach F-2
 F.2.1 Description of Methodology F-3
 F.2.2 Estimating Base-Year (2002) Design Values..... F-4
 F.2.3 Relative Reduction Factors..... F-5
 F.2.4 Criteria for Use of Modeled Days in RRF
 Calculations F-6
 F.2.5 Estimating Future-Year Design Values..... F-7
 F.2.6 Unpaired Peak Concentrations..... F-9
 F.2.7 Other Potential Technical Issues F-9
 F.3 Future Year Results F-10
 F.3.1 Base-Year Design Values..... F-10
 F.3.2 Future Year Design Value and Carrying
 Capacity Estimates F-11
 F.4 Analysis of Model-Simulated, Unmonitored Peaks..... F-15
 F.5 Future Year, 2020 Carrying Capacities F-16
 F.6 Future Year, 2023 Carrying Capacities F-37
 Volume 1: Model Performance Evaluation F-59
 Corroborative Analyses/Weight of Evidence Elements..... F-138

Appendix G: Town Hall Meeting Suggestions

Appendix H: Screening Analysis

Appendix I: Candidate Control Measures

Appendix J: Strategic Action Plan for the California Partnership for the San Joaquin Valley

Appendix K: Reasonably Available Control Technology (RACT) Analysis for Wine Fermentation, Wine Storage, and Brandy Aging

Appendix L: Comments and Responses

L.1 Comments Received from ISSRC L-1
 L.2 Comments Received During the Final 30-Day Public
 Comment Period L-4
 L.3 Comments Received from EPA on January 29, 2007 Draft..... L-16
 L.4 Verbal Comments, February 8, 2007 Public Workshop on the
 Draft 2007 Ozone Plan L-19
 L.5 Written Comments, February 8, 2007 Public Workshop on the
 Draft 2007 Ozone Plan L-25
 L.6 Verbal Comments, October 17, 2006 Public Workshop on the
 Draft 2007 Ozone Plan L-35
 L.7 Written Comments, Public Comment Period Ending on
 November 7, 2006..... L-39

Appendix M: Clean Air Act Requirements

Appendix N: ISSRC “Clearing the Air” February 2007, 1st Version

Appendix O: ISSRC “Clearing the Air” February 2007, 2nd Version

Appendix P: District Evaluation of ISSRC “Clearing the Air” Documents

Appendix Q: Supporting Documents for SIP Creditability

| | |
|---------------------------------------------------------------------------------|-----|
| Q.1 Resolution for Enhancing SIP Creditability of Incentive Reductions | Q-1 |
| Q.2 Sample Emission Reduction Calculations Used in Protocols..... | Q-1 |
| Q.3 Heavy-Duty Program Annual Report Sample | Q-9 |
