Petitioner: Brandon Chang

Mr. Kalashian presented the staff report.

Chevron has requested a regular variance from the applicable requirements of District Rules 2070, 2201, 2520 and 4623, in addition to applicable conditions of the subject permits. The requested variance period would be for a non-consecutive 120 hour period to occur sometime between December 1, 2020, and February 28, 2021, inclusive. If granted, the variance would allow Chevron to continue to store VOC containing liquids in the subject tanks without an operating or functional VRS while they complete the proposed work.
