PROPOSITION 1B: GOODS MOVEMENT EMISSION REDUCTION PROGRAM COMPONENT

Agreement Terms and Conditions

This document is designed to provide Proposition 1B: Goods Movement Emission Reduction Program participants with the required instructions and guidance for the successful completion of their project. The participant will have a designated timeframe (specified in the agreement) from the agreement execution date in which to complete the project.

SJVAPCD staff is available to answer questions and to provide assistance to participants regarding these procedures. It is advisable that you read the entire Agreement Terms & Conditions document and executed agreement in order to fully understand the grant requirements. All questions regarding these agreement terms and conditions should be directed to:

PROJECT ADMINISTRATION

A project begins as soon as the agreement has been executed, and it extends through the Project Life. The Project Life timeframe varies based on project type; please refer to the Obligations of Participant section of your agreement for specifics. The SJVAPCD has implemented a monitoring program that provides ongoing data collection for documenting the progress of projects and also serves as a mechanism for keeping a record of unforeseen problems and delays associated with the project. As part of receiving incentive funds, the participant has agreed to adhere to the following terms:

❖ Agreement Extensions

If a participant is unable to complete the installation of the new engine or retrofit, or the purchase of a new vehicle within the designated period, an agreement extension can be requested. All requests for agreement extensions must identify a serious and compelling reason as to why the project has been delayed and submit supporting documentation. In order for agreement extensions to be considered, they must be submitted 30 days prior to the end of the agreement. Agreement extensions are approved at the discretion of the Executive Director/APCO. Extensions that exceed eleven-months must receive Governing Board approval. There are no guarantees that the SJVAPCD will grant an agreement extension.

❖ Annual Reports

The participant must submit an annual report and supporting documentation, as outlined under the Annual Reporting section of the agreement, which provides data in regards to the engine/vehicle/retrofit operation, annual miles traveled, maintenance, and any other pertinent information requested by the SJVAPCD. The annual report is used to verify that the equipment is in operation. SJVAPCD staff will send an annual report to the mailing address listed in the application thirty (30) days prior to the due date. An annual report form, including instructions, is included in this guidance document. Annual reports must be submitted for the length of the contract term. Noncompliance with these reporting requirements shall require onsite monitoring by SJVAPCD staff, and includes, missing or incomplete annual reports. Please review the Annual Report Packet Checklist (see page 6) to ensure all required documents are submitted for a **complete** Annual Report Packet.

STEP-BY-STEP ANNUAL REPORT GUIDANCE

This section outlines the information requirements for each field of the annual report. **Please fill out a separate annual report form for each piece of equipment that you have an agreement for.** If you need additional assistance, please contact the Strategies and Incentives (SI) Department and a SI staff member will assist you.

❖ **Report Year**

Indicate the year for which you are submitting the annual report. For example, if you are required to submit annual reports for five (5) years, and this is the first year you will be submitting a report, the Report Year would be "1".

❖ **Date**

Indicate the date the annual report was completed.

❖ **Project Number**

The number the SJVAPCD assigned your project; this information can be found in your agreement.

❖ **Organization**

The organization's legal name that entered into agreement with the SJVAPCD. This information was entered into Section 1 of the application and must be **identical** to the information on the Form W-9.

❖ **Primary Contact Name**

The first and last name of the person that serves as the primary contact to the SJVAPCD for the project.

❖ **Street/Mailing Address**

The mailing address used by the organization, including city, state, and zip code.

❖ **Phone Number**

The main phone number, including area code, for the primary contact.

❖ **Fax Number**

The fax number, including area code, for the primary contact.

❖ **Email Address**

The email address for the primary contact.

❖ **Vehicle Address**

The physical location of the vehicle, either as a street address which includes the city, and zip code, or by major cross streets.

❖ **Engine/Vehicle/Retrofit Make, Model, Model Year, Serial Number, and Identification Number**

This Annual Report Form is universally used for all project types in the Proposition 1B: Goods Movement Emission Reduction Program. Not all equipment information fields will apply to your project. You are only required to provide the information in the section (Retrofit, Truck Replacement, or Repower) which pertains to your project. Please leave all other fields blank, or write "N/A".

❖ **Annual vehicle miles traveled during the past year**

Provide the total annual miles traveled by the vehicle during the past year.

❖ **Percent of vehicle miles traveled within California**

Provide the percentage of the vehicle's annual miles traveled during the past year within California. The total percentage should not exceed 100.

❖ **Percent of vehicle miles traveled within California trade corridors**

Provide the percentage of the vehicle's annual miles traveled during the past year within each of the California trade corridors. Use the Other category to describe any mileage traveled outside of the main corridors.

❖ **Identify any maintenance or inspections performed on the engine/vehicle/retrofit during the past year**

Describe briefly, any maintenance that was performed to the engine/vehicle/retrofit during the past year.

❖ **Identify any conditions that significantly affected the vehicle's percentage of miles traveled in California, the Central Valley or California trade corridors**

Describe any conditions that may have significantly affected the percent usage of the vehicle over the past year.

❖ **Other Comments**

List any further comments here.
