

# Technology Advancement Program Open Proposal Submissions

## EMISSION REDUCTION TECHNOLOGY ADVANCEMENT DEMONSTRATIONS

The San Joaquin Valley Air Pollution Control District (District) is seeking proposals for projects demonstrating new and innovative emission reduction technologies that have the potential for broad applicability in the San Joaquin Valley, and will assist the District in meeting its air quality goals. Proposals submitted through this request will be utilized to identify future technology focus areas. This open submittal is not for current available funding. When funding becomes available a new proposal may be required.

---

Submittal: One (1) electronic copy of each proposal.

Address to: Kevin M. Wing  
Air Quality Specialist  
San Joaquin Valley Air Pollution Control District  
1990 East Gettysburg Avenue  
Fresno, CA 93726-0244

### Proposal Submittal Outline

Each proposal submitted must be no greater than 10 pages excluding attachments and must include, at a minimum, the following sections:

1. Executive Summary Page
2. Project Proposal
3. Project Budget
4. Air Quality Benefit Analysis
5. Attachments

#### 1. Executive Summary Page

The first section of the proposal should be an executive summary which includes:

- A brief statement describing project.

- Summary of the applicant's organization and experience related to the proposed project.
- Funding needed for project.
- Project period, including the soonest the project can begin.

## **2. Project Proposal**

This section should contain a detailed project summary including:

- Description of specific actions and methods to be undertaken.
- Detailed project timetable.
- Status of any permits required, if applicable.
- Description of associated work products to be developed.
- Description of the roles of the applicant and partners, if any.
- Description of the applicant's organization and experience related to the proposed project.

## **3. Project Budget**

This section should contain a detailed project budget including:

- Description of the total project costs.
- Funding required from unidentified funding sources.
- Source and amount funding previously identified for project, include documentation of 3<sup>rd</sup> party funding as attachments.

## **4. Air Quality Benefit Analysis**

This section should contain a detailed analysis of emission reductions generated by proposed project.

## **5. Attachments**

This section may include attachments necessary to support portions of the proposal including but not limited to support letters, resumes or curricula vitae.
