Attachment A

Preliminary Draft Proposal for Industrial Projects

1. The project is exempt.

2. (a) The project meets both of the below minimum condition:

   a. Mitigation measures:
      - Performance standards or includes equivalent.
      - Transportation.
      - Project meets air standards.

   b. The project has 0 metric tons CO2eq/year from non-transportation.

3. Project will have significant GHG.

   a. Water usage and wastewater discharge.
   - Purchased electricity.
   - Process loss (light, working, evaporative, etc.).
   - Combustion-related emissions.
   - Industrial sector GHG emissions.

4. Presumption of less than significant impacts related to climate change.

   a. Yes
   - No
Change

Impacts related to climate change

Presumption of significant impacts related to climate change

Yes

Presumption of less than significant impacts related to climate change

No

Criteria to be developed:

More than X metric tons CO2eqyr

or equivalent mitigation will emit no net GHG Impacts. An EIR must be

proposed and all feasible GHG mitigation measures implemented.

AND

--

Standard for transportation:

Meets an interim ARB performance standard for overall energy efficiency.

Standard for water use:

Meets an interim ARB performance standard for energy efficiency.

Operational emissions:

Meets an interim ARB performance standard for construction-related emissions.

Construction emissions:

Includes mitigation measures, or minimum performance standards, or

3. The project meets all of the below:

2. The project complies with a California Environmental Quality Act (CEQA) report.

1. The project complies with a California Environmental Quality Act (CEQA) report.

No more than 15% of the total cost of the project may be taken as a cost savings, and the project must be

Incorporates mechanisms that allow for compliance with environmental regulations.

Includes a community-level GEP inventory and the plan to be reviewed in order to

Incorporate specific, measurable GEP and evaluate emissions:

Includes regulatory mechanisms to regularly monitor and

Executive Order S-3-05:

Executive Order S-3-05:

Meets a community-level GEP.

Following attributes:

1. The project is exempt

2. The project complies with a California Environmental Quality Act (CEQA) report.

3. The project meets all of the below:

4. The project will be reviewed in order to

Incorporate specific, measurable GEP and evaluate emissions:

Includes regulatory mechanisms to regularly monitor and

Executive Order S-3-05:

Executive Order S-3-05:

Meets a community-level GEP.

Following attributes:

1. The project is exempt

2. The project complies with a California Environmental Quality Act (CEQA) report.

3. The project meets all of the below:

4. The project will be reviewed in order to

Incorporate specific, measurable GEP and evaluate emissions:

Includes regulatory mechanisms to regularly monitor and

Executive Order S-3-05:

Executive Order S-3-05:

Meets a community-level GEP.
