Figure B-4
Revised Staff Proposal #3 Tiered Decision Tree Approach – August 27, 2008

Draft AQMD Staff CEQA Greenhouse Gas Significance Threshold

1. Local General Plan or other local plan that, at a minimum, comply with the overall target objectives of the sector-based CARB, Ozone Plan, have been analyzed under CEQA, and have a certified Final CEQA document; extremities anticipated approved by CARB and SCAG. Include a CARB inventory, tracking mechanism, enforcement, and a commitment to remedy the excess emissions if commitments are not met.

2. Substitution for equivalent reductions allowed.
