## **Model General Permit Template**

### **FACILITY-WIDE UMBRELLA**

---

#### **Template # SJV-UM-0-3**

**For All Facilities Applying For A Title V Permit**

This template is designed to streamline the Title V permitting process by addressing the facility-wide requirements for facilities required to obtain a Title V permit. Applicants for Title V permits choosing to use this template will only have to complete the enclosed template qualification form and submit it with their Title V application.

# Template SJV-UM-0-3

---

## I. Purpose

The purpose of this template is to identify all federally enforceable general requirements that apply to all facilities subject to Title V.

## II. Template Applicability

This template is designed to be used by all facilities subject to the requirements of Title V. The permit conditions in this template will be incorporated into the facility's Title V permit only if they agree to the conditions contained herein, and a Template Qualification Form (TQF) is submitted.

The TQF is attached as Appendix A. Completed and signed TQF must be submitted with the Title V application.

## III. Applicable Requirements

Title V facilities may be subject to two types of requirements: Federally-Enforceable requirements and District-only requirements. Federally-enforceable requirements will be enforceable by EPA and the public through Title V permit conditions identified as "Federally Enforceable". District-only requirements represent local or state regulations over which EPA has no direct enforcement authority. The final Title V permit issued by the District will contain both federally enforceable and District-only requirements.

This template does not address any source specific requirements. Requirements addressed by this template apply universally to all Title V sources. Further, this template does not address compliance with all federally enforceable requirements. Generally, requirements not addressed by this template are those that require a source specific analysis, or are covered by other templates. The applicable requirements addressed in this template are in Table 1, Applicable Requirements.

# Template SJV-UM-0-3

**Table 1. Applicable Requirements**

| Rule/Regulation    | Citation  | Description                                 |
|--------------------|---|---|
| SJVUAPCD Reg. I    | 1100 (12/17/92)   | Equipment Breakdown                         |
| SJVUAPCD Reg. I    | 1160 (11/18/92)   | Emission Statements                         |
| SJVUAPCD Reg. II   | 2010 (12/17/92)   | Permits Required                            |
| SJVUAPCD Reg. II   | 2020 (12/20/07)   | Exemptions                                  |
| SJVUAPCD Reg. II   | 2031 (12/17/92)   | Transfer of Permits                         |
| SJVUAPCD Reg. II   | 2040 (12/17/92)   | Applications                                |
| SJVUAPCD Reg. II   | 2070 (12/17/92)   | Standards for Granting Applications         |
| SJVUAPCD Reg. II   | 2080 (12/17/92)   | Conditional Approval                        |
| SJVUAPCD Reg. II   | 2520, Sections 5.2, 9.1.1, 9.4, 9.5, 9.7, 9.8, 9.9, 9.13.1, 9.13.2, 9.16, and 10.0 (06/21/01) | Federally Mandated Operating Permits        |
| SJVUAPCD Reg. IV   | 4101 (02/17/05)   | Visible Emissions                           |
| SJVUAPCD Reg. IV   | 4601 (12/17/09)   | Architectural Coatings                      |
| SJVUAPCD Reg. VIII | 8021, 8031, 8041, 8051, 8061 (08/19/04)   | Fugitive Dust (PM <sub>10</sub> ) Emissions |
| SJVUAPCD Reg. VIII | 8071 (09/16/2004)   | Fugitive Dust (PM <sub>10</sub> ) Emissions |
| 40 CFR Part 82     | Subpart B and F   | Stratospheric Ozone                         |
| 40 CFR Part 61     | Subpart M   | National Emission Standard for Asbestos     |

## IV. Compliance

This section discusses how compliance is assured with each requirement addressed in this template.

### District Rule 1100

Sections 6.0 and 7.0 prescribe breakdown procedures and reporting requirements. These requirements are addressed by template permit conditions #1, #2 and #11. District Rule 1100 has been submitted to the EPA to replace each of the following county rules in the SIP: Rules 110 (Fresno, Stanislaus, San Joaquin); 109 (Merced); 113 (Madera); 111 (Kern, Tulare, Kings). District Rule 1100 is at least as stringent as the county SIP rules addressing breakdowns, as shown in Table 2.

By using this template the applicant is requesting a permit shield from the requirements of County Rule 110 (Fresno, Stanislaus, San Joaquin); 109 (Merced); 113 (Madera); 111 (Kern, Tulare, Kings). See permit shield condition #39.

**Table 2. Comparison of District Rule 1100 to County Rules**

# Template SJV-UM-0-3

| REQUIREMENTS   | District Rule 1100 | Rule 109 (Merced) Rule 110 (S.J.) | Rule 111 (Kern, Tulare, Kings) | Madera Rule 113 | Rule 110 (Fresno, Stanislaus) |
|--|--------------------|-----------------------------------|--------------------------------|-----------------|-------------------------------|
| A breakdown occurrence must be reported as soon as reasonably possible but no later than 1 hour after detection.   | X                  | X                                 | X<br>(Kern allows 2 hrs)       | X               | X                             |
| A variance must be obtained if the occurrence will last longer than a production run or 24 hours, whichever is shorter (96 hours for CEM systems).                   | X                  | X                                 | X                              | X               | X                             |
| A report must be submitted to the APCO within 10 days of the correction of the breakdown occurrence which includes:  | X                  | X                                 | X                              | X               | X                             |
| 1) A statement that the breakdown condition has been corrected, together with the date of correction and proof of compliance.  | X                  | X                                 | X                              | X               | X                             |
| 2) A specific statement of the reason(s) or cause(s) for the occurrence sufficient to enable the APCO to determine whether the occurrence was a breakdown condition. | X                  | X                                 | X                              | X               | X                             |
| 3) A description of the corrective measures undertaken and/or to be undertaken to avoid such an occurrence in the future.  | X                  | X                                 | X                              | X               |                               |
| 4) Pictures of the equipment or controls which failed if available.  | X                  | X                                 | X                              | X               |                               |

### District Rule 1160

Section 5.0 requires the owner or operator of any stationary source to provide the District with a written emissions statement showing actual emissions of reactive organic gases (ROGs) and nitrogen oxides (NOx) from that source. The District waives this requirement for sources emitting less than 25 tons per year of these pollutants if the District provides the Air Resources Board (ARB) with an emissions inventory of sources emitting greater than 10 tons per year of NOx or ROGs based on the use of emission factors acceptable to the ARB. See permit condition #3.

### District Rules 2010 and 2020

District Rule 2010 sections 3.0 and 4.0 require any person building, modifying or replacing any operation that may cause the issuance of air contaminants to apply for an Authority to Construct (ATC) from the District in advance. The ATC will remain in effect until the Permit to Operate (PTO) is granted. These requirements are stated in template permit condition #4.

District Rule 2020 lists equipment which are specifically exempt from obtaining permits and specifies recordkeeping requirements to verify such exemptions. These requirements are stated in template permit condition #4.

Current District Rule 2020 has been submitted to the EPA to replace SIP approved September 17, 1998 version of Rule 2020. The comparison of the current District Rule and the previous version, presented below in table 3 indicate

# Template SJV-UM-0-3

that the current District Rule is at least as stringent as the previous SIP approved version of this rule.

**Table 3. Comparison of District Rule 2020 (9/17/98) to Rule 2020 (12/20/07)**

| REQUIREMENTS  | District Rule 2020 (9/17/98) | District Rule 2020 (12/20/09) |
|---|------------------------------|-------------------------------|
| An ATC or PTO is not required for listed exempt equipment.  | X                            | X                             |
| Conditions are stated under which listed exempt equipment will require an ATC or PTO.   | X                            | X                             |
| Record keeping is required to verify and maintain exemption, when the exemption is based on a maximum daily limitation.             | X                            | X                             |
| A compliance schedule is stated for equipment which loses exemption from permitting, necessitating submission of a PTO application. | X                            | X                             |

### District Rules 2031, 2070, and 2080

These rules set forth requirements to comply with all conditions of the Permit to Operate. Permits to Operate or Authorities to Construct are not transferable unless a new application is filed with and approved by the District. All source operations must be constructed and operated as specified in the Authority to Construct. See permit conditions #5 and #6.

### District Rule 2040

Section 3.0 requires that every application for a permit shall be filed in a manner and form prescribed by the District. See permit condition #7.

### District Rule 2520

Section 5.2 requires permittees submit applications for Title V permit renewal at least six months prior to permit expiration. Permit condition #37 assures compliance with this requirement.

Section 9.0 of District Rule 2520 requires certain elements to be contained in each Title V permit:

Section 9.1.1 of District Rule 2520 requires all conditions on Title V permits specify a reference of the origin of an authority for each term or condition, and identify any difference in form as compared to the applicable requirements upon which the term or condition is based.

Section 9.4 contains requirements to incorporate all applicable recordkeeping requirements into the Title V permit. This section also specifies records of any required monitoring and support data be kept for a period of five years. The requirements to keep specific monitoring records and retain records for five years are stated in template permit conditions #8 and #9, respectively.

Section 9.5 requires the submittal of monitoring reports at least every six months. Prompt reporting of deviations from permitting requirements, including those attributable to upset conditions is also required. The responsible official must

# Template SJV-UM-0-3

---

certify all required reports. These requirements are stated in template permit conditions #10 and #11.

Section 9.7 states that the Title V permit must also contain a severability clause in case of a court challenge; the severability clause is stated in template permit condition #12.

Section 9.8 contains requirements for provisions in the Title V permit stating 1) the permittee must comply with all permit conditions; 2) the permitted activity should not be reduced in order to comply with the permit conditions. Further, this reasoning shall not be used as a defense in an enforcement action, 3) the permit may be revoked, modified, reissued, or reopened for cause, 4) the Title V permit does not reflect any property rights, and 5) the permittee will furnish the District with any requested information to determine compliance with the conditions of the Title V permit. Compliance with these sections of Rule 2520 will be assured by permit conditions #5 and #13 - #16.

Section 9.9 requires the permit specify that the permittee pay annual permit fees and applicable fees from District Rules 3010, 3030, 3050, 3080, 3090, 3110, and 3120. This requirement is stated in template condition #17.

Section 9.13.1 requires any report or document submitted under a permit requirement or a request for information by the District or EPA contain a certification by a responsible official as to truth, accuracy, and completeness. Compliance with this section will be assured by permit condition #26.

Section 9.13.2 contains inspection and entry requirements that allows an authorized representative of the District to enter a permittee's premises to inspect equipment, operations, work practices, permits on file, and to sample substances or monitor parameters for the purpose of assuring compliance with the permit requirements. Compliance with this section will be assured by permit conditions #18, #19, #20, and #21.

Section 9.16 requires that the permittee submit certification of compliance with the terms and standards of Title V permits to the EPA and the District annually (or more frequently as required by the applicable requirement or the District). Condition #36 assures compliance with this requirement.

Section 10.0 requires any application form, report, or compliance certification submitted pursuant to these regulations shall contain certification of truth, accuracy and completeness by a responsible official. Compliance with this section will be assured by permit condition #26.

## District Rule 4101

Section 5.0 prohibits the discharge of any air contaminant for a period or periods aggregating more than 3 minutes in any one hour which is as dark or darker in shade as that designated as No. 1 on the Ringelmann Chart; or is of such opacity as to obscure an observer's view to a degree equal to or greater than the smoke

# Template SJV-UM-0-3

---

described in Section 5.1 of Rule 4101. This requirement is stated in facility-wide template permit condition #22.

## District Rule 4601

This rule limits the emissions of VOCs from architectural coatings. It requires limiting the application of any architectural coating to no more than what is listed in the Table of Standards (Section 5.0). This rule further specifies labeling requirements, coatings thinning recommendations and storage requirements. See conditions #23, #24, and #25.

The latest version of District Rule 4601 has not been SIP approved. Appendix B contains the streamlining of the SIP approved District Rule 4601 (10/31/01) to the current District Rule 4601 to show the current rule is as stringent if not more than the SIP approved version.

## District Rule 4002 - National Emissions Standards for Asbestos - 40 CFR Part 61.145, 61.150

There are applicable requirements from the National Emissions Standards for Hazardous Air Pollutants that apply to all sources in general. These requirements pertain to asbestos removal and disposal from renovated or demolished structures. Compliance is assured for these requirements by template permit condition #35.

## Title VI of the CAA - Stratospheric Ozone

There are applicable requirements from Title VI of the CAA (Stratospheric Ozone) that apply to all sources in general. These requirements pertain to air conditioners, chillers and refrigerators located at a Title V source and to disposal of air conditioners or maintenance/recharging/disposal of motor vehicle air conditioners (MVAC). These requirements are addressed in template permit conditions # 27 and #28.

## SJVUAPCD Regulation VIII - Fugitive Dust (PM10)

These regulations contain requirements for the control of fugitive dust. These requirements apply to various sources, including construction, demolition, excavation, extraction, mining activities, outdoor storage piles, paved and unpaved roads. Compliance with these regulations will be required by permit conditions #29 - #34.

## **V. Permit Shield**

A permit shield legally protects a facility from enforcement of the shielded regulations when a source is in compliance with the terms and conditions of the Title V permit. Compliance with the terms and conditions of the Title V permit is considered compliance with all applicable requirements upon which those conditions are based.

## District Rule 1100, 6.1 and 7.0

# Template SJV-UM-0-3

---

Compliance with these requirements was addressed in Section IV of this document, and is assured by conditions #1 and #2. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 2010, 3.0 and 4.0

Compliance with these requirements was addressed in Section IV of this document, and is assured by condition #4. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 2031; 2070, and 2080

Compliance with these requirements was addressed in Section IV of this document, and is assured by conditions #5 and #6. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 2040

Compliance with these requirements was addressed in Section IV of this document, and is assured by condition #7. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 4101

Compliance with these requirements was addressed in Section IV of this document, and is assured by condition #22. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 4601

Compliance with these requirements was addressed in Section IV of this document, and is assured by conditions #23, #24 and #25. Therefore, a permit shield is being granted for these requirements in condition #40.

## District Rule 8021, 8031, 8041, 8051, 8061, and 8071

Compliance with these requirements was addressed in Section IV of this document, and is assured by conditions #29 - #34. Therefore, a permit shield is being granted for these requirements in condition #40.

## County APCD Rules

Where current District rules assure compliance with comparable county rules that are part of the SIP, a permit shield is granted in template permit condition #39.

## **VI. Permit Conditions**

These permit conditions will be incorporated into the Title V permit of any facility choosing to make use of this Umbrella Template:

1. The owner or operator shall notify the District of any breakdown condition as soon as reasonably possible, but no later than one hour after its detection, unless the owner or operator demonstrates to the District's satisfaction that the longer reporting period was necessary. [District Rule 1100, 6.1; County Rules 110

## Template SJV-UM-0-3

---

(Fresno, Stanislaus, San Joaquin); 109 (Merced); 113 (Madera); and 111 (Kern, Tulare, Kings)]

2. The District shall be notified in writing within ten days following the correction of any breakdown condition. The breakdown notification shall include a description of the equipment malfunction or failure, the date and cause of the initial failure, the estimated emissions in excess of those allowed, and the methods utilized to restore normal operations. [District Rule 1100, 7.0; County Rules 110 (Fresno, Stanislaus, San Joaquin); 109 (Merced); 113 (Madera); and 111 (Kern, Tulare, Kings)]

3. The owner or operator of any stationary source operation that emits more than 25 tons per year of nitrogen oxides or reactive organic compounds, shall provide the District annually with a written statement in such form and at such time as the District prescribes, showing actual emissions of nitrogen oxides and reactive organic compounds from that source. [District Rule 1160, 5.0]

4. Any person building, altering or replacing any operation, article, machine, equipment, or other contrivance, the use of which may cause the issuance of air contaminants or the use of which may eliminate, reduce, or control the issuance of air contaminants, shall first obtain an Authority to Construct (ATC) from the District unless exempted by District Rule 2020 (12/20/07). [District Rule 2010, 3.0 and 4.0; and 2020]

5. The permittee must comply with all conditions of the permit including permit revisions originated by the District. All terms and conditions of a permit that are required pursuant to the Clean Air Act (CAA), including provisions to limit potential to emit, are enforceable by the EPA and Citizens under the CAA. Any permit noncompliance constitutes a violation of the CAA and the District Rules and Regulations, and is grounds for enforcement action, for permit termination, revocation, reopening and reissuance, or modification; or for denial of a permit renewal application. [District Rules 2070, 7.0; 2080; and 2520, 9.9.1 and 9.13.1]

6. A Permit to Operate or an Authority to Construct shall not be transferred unless a new application is filed with and approved by the District. [District Rule 2031]

7. Every application for a permit required under Rule 2010 (12/17/92) shall be filed in a manner and form prescribed by the District. [District Rule 2040]

8. The operator shall maintain records of required monitoring that include: 1) the date, place, and time of sampling or measurement; 2) the date(s) analyses were performed; 3) the company or entity that performed the analysis; 4) the analytical techniques or methods used; 5) the results of such analysis; and 6) the operating conditions at the time of sampling or measurement. [District Rule 2520, 9.4.1]

9. The operator shall retain records of all required monitoring data and support information for a period of at least 5 years from the date of the monitoring sample, measurement, or report. Support information includes copies of all reports required

## Template SJV-UM-0-3

---

by the permit and, for continuous monitoring instrumentation, all calibration and maintenance records and all original strip-chart recordings. [District Rule 2520, 9.4.2]

10. The operator shall submit reports of any required monitoring at least every six months unless a different frequency is required by an applicable requirement. All instances of deviations from permit requirements must be clearly identified in such reports. [District Rule 2520, 9.5.1]

11. Deviations from permit conditions must be promptly reported, including deviations attributable to upset conditions, as defined in the permit. For the purpose of this condition, promptly means as soon as reasonably possible, but no later than 10 days after detection. The report shall include the probable cause of such deviations, and any corrective actions or preventive measures taken. All required reports must be certified by a responsible official consistent with section 10.0 of District Rule 2520 (6/21/01). [District Rules 2520, 9.5.2 and 1100, 7.0]

12. If for any reason a permit requirement or condition is being challenged for its constitutionality or validity by a court of competent jurisdiction, the outcome of such challenge shall not affect or invalidate the remainder of the conditions or requirements in that permit. [District Rule 2520, 9.7]

13. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit. [District Rule 2520, 9.8.2]

14. The permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. [District Rule 2520, 9.8.3]

15. The permit does not convey any property rights of any sort, or any exclusive privilege. [District Rule 2520, 9.8.4]

16. The Permittee shall furnish to the District, within a reasonable time, any information that the District may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the District copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to EPA along with a claim of confidentiality. [District Rule 2520, 9.8.5]

17. The permittee shall pay annual permit fees and other applicable fees as prescribed in Regulation III of the District Rules and Regulations. [District Rule 2520, 9.9]

18. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to enter the permittee's premises where

## Template SJV-UM-0-3

---

a permitted source is located or emissions related activity is conducted, or where records must be kept under condition of the permit. [District Rule 2520, 9.13.2.1]

19. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit. [District Rule 2520, 9.13.2.2]

20. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to inspect at reasonable times any facilities, equipment, practices, or operations regulated or required under the permit. [District Rule 2520, 9.13.2.3]

21. Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to sample or monitor, at reasonable times, substances or parameters for the purpose of assuring compliance with the permit or applicable requirements. [District Rule 2520, 9.13.2.4]

22. No air contaminants shall be discharged into the atmosphere for a period or periods aggregating more than 3 minutes in any one hour which is as dark or darker than Ringelmann #1 or equivalent to 20% opacity and greater, unless specifically exempted by District Rule 4101 (02/17/05). If the equipment or operation is subject to a more stringent visible emission standard as prescribed in a permit condition, the more stringent visible emission limit shall supersede this condition. [District Rule 4101, and County Rules 401 (in all eight counties in the San Joaquin Valley)]

23. No person shall manufacture, blend, repackage, supply, sell, solicit or apply any architectural coating with a VOC content in excess of the corresponding limit specified in Table of Standards 1 effective until 12/30/10 or Table of Standards 2 effective on and after 1/1/11 of District Rule 4601 (12/17/09) for use or sale within the District. [District Rule 4601, 5.1]

24. All VOC-containing materials subject to Rule 4601 (12/17/09) shall be stored in closed containers when not in use. [District Rule 4601, 5.4]

25. The permittee shall comply with all the Labeling and Test Methods requirements outlined in Rule 4601 sections 6.1 and 6.3 (12/17/09). [District Rule 4601, 6.1 and 6.3]

26. With each report or document submitted under a permit requirement or a request for information by the District or EPA, the permittee shall include a certification of truth, accuracy, and completeness by a responsible official. [District Rule 2520, 9.13.1 and 10.0]

27. If the permittee performs maintenance on, or services, repairs, or disposes of appliances, the permittee shall comply with the standards for Recycling and

Emissions Reduction pursuant to 40 CFR Part 82, Subpart F. [40 CFR 82 Subpart F]

28. If the permittee performs service on motor vehicles when this service involves the ozone-depleting refrigerant in the motor vehicle air conditioner (MVAC), the permittee shall comply with the standards for Servicing of Motor Vehicle Air Conditioners pursuant to all the applicable requirements as specified in 40 CFR Part 82, Subpart B. [40 CFR Part 82, Subpart B]

29. Disturbances of soil related to any construction, demolition, excavation, extraction, or other earthmoving activities shall comply with the requirements for fugitive dust control in District Rule 8021 unless specifically exempted under Section 4.0 of Rule 8021 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8021 and 8011]

30. Outdoor handling, storage and transport of any bulk material which emits dust shall comply with the requirements of District Rule 8031, unless specifically exempted under Section 4.0 of Rule 8031 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8031 and 8011]

31. An owner/operator shall prevent or cleanup any carryout or trackout in accordance with the requirements of District Rule 8041 Section 5.0, unless specifically exempted under Section 4.0 of Rule 8041 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8041 and 8011]

32. Whenever open areas are disturbed, or vehicles are used in open areas, the facility shall comply with the requirements of Section 5.0 of District Rule 8051, unless specifically exempted under Section 4.0 of Rule 8051 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8051 and 8011]

33. Any paved road or unpaved road shall comply with the requirements of District Rule 8061 unless specifically exempted under Section 4.0 of Rule 8061 (8/19/2004) or Rule 8011 (8/19/2004). [District Rule 8061 and Rule 8011]

34. Any unpaved vehicle/equipment area that anticipates more than 50 Average annual daily Trips (AADT) shall comply with the requirements of Section 5.1.1 of District Rule 8071. Any unpaved vehicle/equipment area that anticipates more than 150 vehicle trips per day (VDT) shall comply with the requirements of Section 5.1.2 of District Rule 8071. On each day that 25 or more VDT with 3 or more axles will occur on an unpaved vehicle/equipment traffic area, the owner/operator shall comply with the requirements of Section 5.1.3 of District Rule 8071. On each day when a special event will result in 1,000 or more vehicles that will travel/park on an unpaved area, the owner/operator shall comply with the requirements of Section 5.1.4 of District Rule 8071. All sources shall comply with the requirements of Section 5.0 of District Rule 8071 unless specifically exempted under Section 4.0 of Rule 8071 (9/16/2004) or Rule 8011 (8/19/2004). [District Rule 8071 and Rule 8011]

## Template SJV-UM-0-3

---

35. Any owner or operator of a demolition or renovation activity, as defined in 40 CFR 61.141, shall comply with the applicable inspection, notification, removal, and disposal procedures for asbestos containing materials as specified in 40 CFR 61.145 (Standard for Demolition and Renovation). [40 CFR 61 Subpart M]

36. The permittee shall submit certifications of compliance with the terms and standards contained in Title V permits, including emission limits, standards and work practices, to the District and the EPA annually (or more frequently as specified in an applicable requirement or as specified by the District). The certification shall include the identification of each permit term or condition, the compliance status, whether compliance was continuous or intermittent, the methods used for determining the compliance status, and any other facts required by the District to determine the compliance status of the source. [District Rule 2520, 9.16]

37. The permittee shall submit an application for Title V permit renewal to the District at least six months, but not greater than 18 months, prior to the permit expiration date. [District Rule 2520, 5.2]

38. When a term is not defined in a Title V permit condition, the definition in the rule cited as the origin and authority for the condition in a Title V permits shall apply. [District Rule 2520, 9.1.1]

39. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following outdated SIP requirements: Rule 401 (Madera, Fresno, Kern, Kings, San Joaquin, Stanislaus, Tulare and Merced), Rule 110 (Fresno, Stanislaus, San Joaquin), Rule 109 (Merced), Rule 113 (Madera), Rule 111 (Kern, Tulare, Kings), and Rule 202 (Fresno, Kern, Tulare, Kings, Madera, Stanislaus, Merced, San Joaquin). A permit shield is granted from these requirements. [District Rule 2520, 13.2]

40. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following applicable requirements: SJVUAPCD Rules 1100, sections 6.1 and 7.0 (12/17/92); 2010, sections 3.0 and 4.0 (12/17/92); 2031 (12/17/92); 2040 (12/17/92); 2070, section 7.0 (12/17/92); 2080 (12/17/92); 4101 (2/17/05); 4601 (12/17/09); 8021 (8/19/2004); 8031 (8/19/2004); 8041 (8/19/2004); 8051 (8/19/2004); 8061 (8/19/2004); and 8071 (9/16/2004). A permit shield is granted from these requirements. [District Rule 2520, 13.2]
