

FUNDING OPPORTUNITY TO REPLACE TRUCKS

The SJVAPCD will start accepting applications for heavy duty diesel truck replacements on **Monday, August 26, 2013** until **Thursday, October 10, 2013**. Please note that the following list of minimum requirements does not guarantee funding, and additional information may be required. Retirement of existing equipment funded as a result of this solicitation, or the replacement vehicle purchased, **cannot be used to demonstrate compliance with the 2014 On-Road Truck and Bus Regulation requirements.**

Eligible Applicants

- Class 8 (GVWR 33,001 lbs+)
 - ◆ Traveling 20,000 miles minimum a year
- Class 7 (GVWR 26,001-33,000 lbs)
 - ◆ Traveling 20,000 miles minimum a year
- Class 6 (GVWR 19,501-26,000 lbs)
 - ◆ Traveling 10,000 miles minimum a year

Minimum Program Requirements

- Must engage in goods movement as defined by ARB (goods must be moveable and must be part of a transaction that involves a contract for the sale of the goods).
- Demonstrate that your fleet is in full compliance with the California Air Resources Board Truck and Bus Regulation.
- Clear outstanding ARB violations for vehicles and/or fleets.
- Applicants will be required to submit:
 - ◆ A minimum of 2 years registration, 24 months total.
 - ◆ Mileage documentation for past two years.
 - ◆ Truck title clear of any lien holders.
- Trucks need to have operated at least 75% in California for the past two years (applicant must operate new truck 90%-100% of the time in California for length of their contract).
- Old truck must currently be in-use and in operational condition and maintain this condition until replaced.
- New truck must meet MY 2010 emission standards or cleaner (0.20 g NOx).

Application Assistance Workshops

Fresno District Office, San Joaquin Room
Tuesday, September 3, 2013
8:30 AM — 4:30 PM
1990 E. Gettysburg Ave, Fresno, CA 93726

Bakersfield District Office, Kaweah Room
Tuesday, September 10, 2013
10:00 AM — 3:00 PM
34946 Flyover Court, Bakersfield, 93308

Modesto District Office, Magnolia Room
Tuesday, September 17, 2013
10:00 AM — 3:00 PM
4800 Enterprise Way, Modesto, CA 95356

For more information on eligibility and requirements, please contact staff in the Incentive Program:

Phone: (855) 99GRANT

Fax: (559) 230-6112

Email: Prop1B@valleyair.org

Funding Amounts: Heavy Duty Trucks—All Fleet Sizes

Projects will be funded based on the class of the truck and the emission standards of the new truck. Applying for Prop 1B funding simultaneously through multiple Air Districts is not allowed.

Project Type	Truck Class	Old Engine Model Year	Replacement Engine Emission Level	Maximum Funding Amounts	Eligible for Fleet Compliance on:
1 for 1 and 2 for 1 Replacement	Class 8	1994-2006	0.20 NOx - 2013 model year engine/truck or newer (<i>New truck only</i>)	\$50,000	12/31/2015
			0.20 NOx – Used 2010 model year engine/truck or newer	\$40,000	
	Class 7	1994-2006	0.20 NOx - New or Used 2010 model year engine/truck or newer	\$35,000	
	Class 6	1996-2006	0.20 NOx – 2013 model year engine/truck or newer (<i>New truck only</i>)	\$25,000	
3-Way Truck Transaction	Class 8/7/6	Truck A: 1998-2006 with Level 3+ Filter installed Truck B: 1993 or older	Replace Truck A with Truck C (2013 or newer meeting 2010 emission standards) Scrap Truck B and replace with Truck A **New Truck C must be same Class as Truck A	New Class 8 \$50,000 Used Class 8 \$40,000 New/Used Class 7 \$35,000 New Class 6 \$25,000	12/31/2015
Repower	Class 8/7/6	<i>Contact District for project details</i>			

If eligible, maximum funding level for new (model year 2013 or newer) zero-emission vehicles (i.e. electric) could be combined with funding from the **California Hybrid Voucher Incentive Program (HVIP)**. Funds available in the HVIP program are subject to availability and all other requirements for the HVIP program. A list of approved zero-emission vehicles is available on the HVIP website at <http://www.californiahvip.org/eligible-vehicles>. **All eligible zero-emission replacement projects will receive a priority position on the District’s project rank list.**

Hints and Tips

- ⇒ Register in ARB’s Truck Regulation Upload, Compliance, and Reporting System (TRUCRS).
- ⇒ Visit your local DMV office and request a Vehicle Registration Information Record (INF 1125) for each truck in your application. To find your local DMV office, please visit <http://www.dmv.ca.gov>. You may also obtain and pay for the DMV printout online at: <http://www.dmv.ca.gov/online/vrr.htm>.
- ⇒ Gather at least 2 records showing an odometer reading at least 6 months apart for each truck in your application. One reading must be current around time of application.
- ⇒ Determine the manufacturer’s Gross Vehicle Weight Rating (GVWR) as noted on door jamb of truck. GVWR picture to be submitted with application.
- ⇒ Maintain current registration for existing truck; keep it in legal operating condition until delivered to dismantler. Truck must continue to move goods for sale (a majority of the time). Planned non-operation is not allowed at any time.
- ⇒ Applicants may request reduced funding amounts to improve cost-effectiveness and competitiveness of the project.
- ⇒ Projects committing to 90% operation in California may be less competitive due to decreased emission reductions achieved within California.
- ⇒ Used replacement trucks must have an odometer reading less than 500,000 miles (Class 8) or less than 250,000 miles (Class 7) at the time of post-inspection. Used Class 6 trucks are not eligible for Program funding.
