

Initial Study and Proposed Mitigated Negative Declaration

Date: March 23, 2011
To: Distribution List
From: SJVUAPCD Permit Services Department – CEQA Division
Subject: Initial Study and Proposed Mitigated Negative Declaration
Aera Energy Belridge Oilfield Complex Steam Generators Project
Project No. S-1084210, S-1084406, S-1084433, and S-1084434

Respond By: April 27, 2011

The San Joaquin Valley Air Pollution Control District (District) is soliciting substantive comments from Responsible and Trustee Agencies regarding the scope and content of the subject environmental document. The Proposed Mitigated Negative Declaration is based upon a finding that with mitigation the project will have a less than significant impact on the environment. The reasons to support such a finding are documented in the enclosed Initial Study and Proposed Mitigated Negative Declaration.

Comments on any shortcomings in the environmental document or recommendations for additional mitigation measures should be as specific as possible, be based on supporting data, and emphasize the impacts within your agency's area of expertise and/or jurisdictional responsibilities.

Please submit your comments via email to jessica.willis@valleyair.org or mail to:
