RE: Notice of Final Action – Emission Reduction Credits
Facility Number: S-2234
Project Number: S-1133368

Dear Mr. Champion:

The Air Pollution Control Officer has issued Emission Reduction Credits (ERCs) to Occidental of Elk Hills, Inc. for emission reduction generated by the shutdown of the 35R gas plant and three IC engines driving gas compressors, at Sections 26 and 35, Township 30 South, Range 23 East. The quantity of ERCs to be issued is 63,197 lb-NOx/yr, 57 lb-SOx/yr, 3,994 lb-PM10/yr, 69,454 lb-CO/yr, and 49,531 lb-VOC/yr.

Enclosed are copies of the ERC Certificates and a copy of the notice of final action to be published approximately three days from the date of this letter.

Notice of the District's preliminary decision to issue the ERC Certificates was published on March 17, 2014. The District's analysis of the proposal was also sent to CARB and US EPA Region IX on March 13, 2014. All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in a correction to the amount of NOx ERC received for the 2nd quarter. An error was made transposing historical actual emissions from the data spreadsheets to the summary tables within the evaluation. Only 2nd quarter NOx was affected. The corrected value is reflected in the final ERC banking certificate being issued and the annual amount of NOx credits listed above. These changes were minor and did not affect the basis for issuance of the above referenced ERCs.
