Re: Revised Notice of Preliminary Decision – Emission Reduction Credits
Facility Number: S-517
Project Number: S-1142416

Dear Ms. Dowdle:

Enclosed for your review and comment is the District's analysis of Tri-City Growers, Inc's application for Emission Reduction Credits (ERCs) resulting from the shutdown of the cotton gin, at 18897 Ave 96, Terra Bella, CA 93720. The quantity of ERCs proposed for banking is 283 lb-NOx/yr, 8 lb-SOx/yr, 8,869 lb-PM10/yr, 57 lb-CO/yr, 17 lb-VOC/yr and 167 metric tons CO2e/yr.

The notice of preliminary decision for this project will be published approximately three days from the date of this letter. After addressing all comments made during the 30-day public notice comment period, the District intends to issue the ERCs. Please submit your written comments on this project within the 30-day public comment period, as specified in the enclosed public notice.

This notice was initially incorrectly listed for facility C-517, project C-1142416 and was published in the Fresno Bee. This revised notice corrects those errors and will be published in the Visalia Times-Delta, which is the correct county newspaper for the facility. No changes were made to the underlying analysis.

Seyed Sadredin

Executive Director/Air Pollution Control Officer
