

Fresno Bee

Newspaper notice for publication in Fresno Bee and for posting on valleyair.org

**NOTICE OF FINAL ACTION
FOR THE ISSUANCE OF
AUTHORITY TO CONSTRUCT PERMITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permit to Shell Pipeline Company LP for removal of the 30 billion Btu/yr annual heat input limit from a 20 MMBtu/hr natural gas-fired process heater (Oil Heater #1) at the Panoche Pump Station, at Section 18, Township 14S, Range 12E, Fresno County, CA.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in the reduction of the required NOx emission limit from 9 ppmv @ 3% O2 to 7 ppmv @ 3% O2. These changes were minor and did not trigger additional public notification requirements.

The application review for Project #1163184 is available for public inspection at http://www.valleyair.org/notices/public_notices_idx.htm, the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 1990 EAST GETTYSBURG AVENUE, FRESNO, CA 93726, and at any other District office. For additional information, please contact the District at (559) 230-6000.
