

Fresno Bee

Newspaper notice for publication in Fresno Bee and for posting on valleyair.org

**NOTICE OF FINAL ACTION
FOR THE ISSUANCE OF
AUTHORITY TO CONSTRUCT PERMITS**

NOTICE IS HEREBY GIVEN that the Air Pollution Control Officer has issued the Authority to Construct permits to Madera DP2, LLC for the installation of a covered lagoon anaerobic digester system with an emergency backup flare and two 1,395 bhp Guascor model HGM 560 and one 1,057 bhp Siemens model SGE-56SL lean-burn digester gas-fired IC engines with oxidation catalysts, SCR systems, and heat exchangers powering electrical generators, at 9730 Avenue 18-1/2, Chowchilla.

All comments received following the District's preliminary decision on this project were considered.

Comments received by the District during the public notice period resulted in the addition of clarifying emergency flare operation conditions to permit C-9220-1-0. These changes were minor and did not trigger additional public notification requirements, nor did they have any impact upon the Best Available Control Technology determination.

The application review for Project # C-1172116 is available for public inspection at http://www.valleyair.org/notices/public_notices_idx.htm, the SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT, 1990 EAST GETTYSBURG AVENUE, FRESNO, CA 93726, and at any other District office. For additional information, please contact the District at (559) 230-6000.
