Notice is hereby given that the San Joaquin Valley Unified Air Pollution Control District (District) is proposing a Supplemental Environmental Impact Report for the following project:

PROJECT TITLE, LOCATION, AND DESCRIPTION

**Project Title:** Draft Eco-Energy Liquid Bulk Receiving Terminal Supplemental Environmental Impact Report (N-1181193)

**Project Location:** NuStar Terminal Operations Partnership, L.P. 2941 Navy Drive, Stockton, California.

**Description of Project:** NuStar Terminals Operations Partnership, L.P.’s proposed modification is for the construction and operation for the portion of the pipeline system on NuStar’s property, coming from the Eco-Energy Liquid Bulk Receiving Terminal. The pipeline will transfer ethanol from the Eco-Energy facility to the NuStar facility. The pipeline construction on NuStar property for the NuStar Modification would be approximately 2,600 feet in length for the new 12” pipeline and its associated pipelines.

AVAILABILITY OF SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT:

The Draft Supplemental Environmental Impact Report demonstrates that the NuStar Modification will have a less than significant impact on the environment. The reasons to support such a finding are documented in the Draft Supplemental Environmental Impact Report prepared by the District. Copies of the Draft Supplemental Environmental Impact Report and all documents referenced therein may be reviewed at the following location:

San Joaquin Valley Unified Air Pollution Control District:

Mr. Michael Corder  
San Joaquin Valley APCD  
Central Region Office  
1990 E. Gettysburg Ave.  
Fresno, CA  93726

COMMENTS ON SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT:

**Public Review Period:** Begins: June 16, 2020  Ends: July 31, 2020

Any interested person may submit written comments on the Supplemental Environmental Impact Report at the address above or email comments at Michael.Corder@valleyair.org. Comments will be reviewed by the District in considering the adoption of a Final Supplemental Environmental Impact Report for the Project. To be considered, comments must be received by **5:00 PM on July 31, 2020.**
