

March 30, 2022

Ms. Lynn Meyers
Oak Ridge Winery, LLC
PO Box 440
Lodi, CA 95241

Re: Notice of Preliminary Decision - Federally Mandated Operating Permit
Facility Number: N-9381
Project Number: N-1213334

Dear Ms. Meyers:

Enclosed for your review is the District's analysis of Oak Ridge Winery, LLC's application for the Federally Mandated Operating Permit for its operation at 6100 E Highway 12, Lodi, California.

The notice of preliminary decision for this project has been posted on the District's website (www.valleyair.org). After addressing all comments made during the 30-day public notice and the 45-day EPA comment periods, the District intends to issue the Federally Mandated Operating Permit. Please submit your written comments on this project within the 30-day public comment period, as specified in the enclosed public notice.

Thank you for your cooperation in this matter. If you have any questions, please contact Mr. Nick Peirce, Permit Services Manager, at (209) 557-6400.

Sincerely,

Brian Clements
Director of Permit Services

TITLE V APPLICATION REVIEW

Winery

Engineer: Kevin Perez
Date: 3/27/23

Facility Number: N-9381
Facility Name: Oak Ridge Winery, LLC
Mailing Address: PO Box 440
Lodi, CA 95241

Contact Name: Lynn Meyers
Phone: (209) 369-4758

Responsible Official: Raquel Casity
Title: General Manager/Partner

Project #: N-1213334
Deemed Complete: November 1, 2021

I. PROPOSAL

Oak Ridge Winery, LLC is proposing that an initial Title V permit be issued for its existing wine production facility located in Lodi, CA. The purpose of this evaluation is to identify all applicable requirements, determine if the facility will comply with those applicable requirements, and to provide the legal and factual basis for proposed permit conditions.

II. FACILITY LOCATION

Oak Ridge Winery, LLC is located at 6100 E Highway 12 in Lodi, CA.

III. EQUIPMENT LISTING

A detailed facility printout listing all permitted equipment at the facility is shown in Attachment A.

A summary of the exempt equipment categories, which describe the insignificant activities or equipment at the facility not requiring a permit, is shown in Attachment B. This equipment is not exempt from facility-wide requirements.

IV. GENERAL PERMIT TEMPLATE USAGE

The applicant is requesting to use the following model general permit templates:

A. Facility wide SJV-UM-0-3

The applicant has requested to utilize template #SJV-UM-0-3 for the facility wide requirements. Based on the information submitted on the Template Qualification Form, the applicant qualifies for the use of this template.

V. SCOPE OF EPA AND PUBLIC REVIEW

Certain segments of the proposed Operating Permit are based on model general permit templates that have been previously subject to EPA and public review. The terms and conditions from the model general permit templates are included in the proposed permit and are not subject to further EPA and public review.

For permit applications utilizing model general permit templates, public and agency comments on the District's proposed actions are limited to the applicant's eligibility for model general permit template, applicable requirements not covered by the model general permit template, and the applicable procedural requirements for issuance of Title V Operating Permits.

Conditions 1 through 22 and conditions 26 through 40 of the requirements for permit unit N-9381-0-0, including their underlying applicable requirements, originate from model general permit templates and are not subject to further EPA or public review.

VI. APPLICABLE REQUIREMENTS ADDRESSED BY GENERAL PERMIT TEMPLATES

- District Rule 1100, Equipment Breakdown
(amended December 17, 1992)
- District Rule 1160, Emission Statements
(adopted November 18, 1992)
- District Rule 2010, Permits Required
(amended December 17, 1992)
- District Rule 2020, Exemptions
(amended December 18, 2014)

- District Rule 2031, Transfer of Permits
(adopted December 17, 1992)
- District Rule 2040, Applications
(amended December 17, 1992)
- District Rule 2070, Standards for Granting Applications
(adopted December 17, 1992)
- District Rule 2080, Conditional Approval
(amended December 17, 1992)
- District Rule 4101, Visible Emissions
(amended February 17, 2005)
- District Rule 8011, Fugitive Dust General Requirements
(amended August 19, 2004)
- District Rule 8021, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Construction, Demolition, Excavation, and Extraction Activities
(amended August 19, 2004)
- District Rule 8031, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Handling and Storage of Bulk Materials
(amended August 19, 2004)
- District Rule 8041, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Carryout and Trackout
(amended August 19, 2004)
- District Rule 8051, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Open Area
(amended August 19, 2004)
- District Rule 8061, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Paved and Unpaved Roads
(amended August 19, 2004)
- District Rule 8071, Fugitive Dust Requirements for Control of Fine Particulate Matter (PM10) from Unpaved Vehicle/Equipment Areas
(amended September 16, 2004)

- 40 CFR Part 61, Subpart M, National Emission Standard for Asbestos (amended July 20, 2004)
- 40 CFR Part 82, Subpart B, Servicing of Motor Vehicle Air Conditioners (amended March 24, 2021)
- 40 CFR Part 82, Subpart F, Recycling and Emission Reduction (amended April 10, 2020)

VII. APPLICABLE REQUIREMENTS NOT ADDRESSED BY GENERAL PERMIT TEMPLATES

- District Rule 1070, Inspections (amended December 17, 1992)
- District Rule 2201, New and Modified Stationary Source Review Rule (amended August 15, 2019)
- District Rule 2520, Federally Mandated Operating Permits (amended August 15, 2019)
- District Rule 4601, Architectural Coatings (amended April 16, 2020)
- District Rule 4623, Storage of Organic Liquids (amended May 19, 2005)
- District Rule 4694, Wine Fermentation and Storage Tanks¹ (amended December 15, 2005)
- 40 CFR Part 64, Compliance Assurance Monitoring

VIII. REQUIREMENTS NOT FEDERALLY ENFORCEABLE

For each Title V source, the District issues a single permit that contains the Federally Enforceable requirements, as well as the District-only requirements. The District-only requirements are not a part of the Title V Operating Permits. The terms and conditions that are part of the facility's Title V permit are designated as "Federally Enforceable Through Title V Permit."

¹ Only certain portions of Sections 1.0, 2.0, 3.0, 4.0, 5.0, and 6.0 of Rule 4694 were approved as part of the SIP

This facility is subject to the following rules that are not currently federally enforceable:

- District Rule 4102, Nuisance
(amended December 17, 1992)
- District Rule 4694, Wine Fermentation and Storage Tanks²
(amended December 15, 2005)

For this facility, condition 1 of the requirements for permit units N-9381-1-1 through N-9381-248-1, N-9381-249-2 through N-9381-253-2, and N-9381-254-1 through N-9381-260-1 are based on District Rule 4102, listed above, and are not Federally Enforceable through Title V.

IX. COMPLIANCE

A. Requirements Addressed by Model General Permit Templates

1. Facility Wide Requirements

The applicant is proposing to use a general permit template to address federally applicable facility-wide requirements. Section IV of template SJV-UM-0-3 includes a demonstration of compliance for all applicable requirements. Template conditions have been added to the facility wide requirements as condition numbers 1 through 22 and 26 through 40 to assure compliance with these requirements.

2. District Rule 4101, Visible Emissions

This rule is addressed by the general template. Permit N-9381-56-1 has a condition referencing this rule. This condition has been updated to indicate it is federally enforceable through the Title V permit.

² Only certain portions of Sections 1.0, 2.0, 3.0, 4.0, 5.0, and 6.0 of Rule 4694 were approved as part of the SIP. Requirements for this Rule will be discussed later in the Compliance section of this document.

B. Requirements Not Addressed by Model General Permit Templates

1. District Rule 1070, Inspections

This rule applies to any source operation which emits or may emit air contaminants. It explains the Districts authority in determining compliance applicable rules and regulations. The District has the authority to require recordkeeping, to make inspections and to conduct tests of air pollution sources.

- a. Red and White Wine Fermentation and Storage Tanks (N-9381-1-1 through N-9381-55-1, N-9381-57-1 through N-9381-159-1, and N-9381-161-1 through N-9381-242-1).

Condition 4 on these permits contains a recordkeeping requirement referencing Rule 1070.

- b. Stainless Steel Wine Storage Tank (N-9381-56-1).

Condition 5 on this permit contains a recordkeeping requirement referencing Rule 1070.

- c. Stainless Steel Distilled Spirit Storage Tank (N-9381-160-1).

Conditions 3 and 4 on this permit contain Rule 1070 requirements.

- d. Stainless Steel Wine Storage Tanks (N-9381-243-1 through N-9381-248-1).

Condition 4 on these permits contains a recordkeeping requirement referencing Rule 1070.

- e. Stainless Steel Wine Storage Tanks (N-9381-249-2 and N-9381-253-2).

Condition 11 on these permits contains Rule 1070 requirements.

- f. Red and White Wine Fermentation and Storage Tanks (N-9381-254-1 and N-9381-260-1).

Condition 5 on the current permits contains a recordkeeping requirement referencing Rule 1070.

2. **District Rule 2201, New and Modified Stationary Source Review Rule (NSR)**

District Rule 2201 applies to new and modifying stationary sources that require a District permit. District Rule 2201 was last amended on August 15, 2019. This initial Title V permit does not constitute a modification per Section 3.25 of the rule. Therefore, the updated requirements of this rule are not applicable at this time. The Permits to Operate will be updated as follows:

- a. Red and White Wine Fermentation and Storage Tanks (N-9381-1-1 through N-9381-55-1, N-9381-57-1 through N-9381-159-1, N-9381-161-1 through N-9381-242-1, and N-9381-254-1 through N-9381-260-1).

These permit units do not have any requirements under District Rule 2201 or any previous NSR rule. There are no NSR requirements that need to be changed to federally enforceable.

- b. Stainless Steel Wine Storage Tank (N-9381-56-1).

Condition 4 of this permit unit contains a daily emission limit which enforces requirements of Rule 2201. This condition will be updated to indicate it is federally enforceable through the Title V permit.

- c. Stainless Steel Distilled Spirit Storage Tank (N-9381-160-1).

This permit unit does not have any requirements under District Rule 2201 or any previous NSR rule. There are no NSR requirements that need to be changed to federally enforceable.

- d. Stainless Steel Wine Storage Tanks (N-9381-243-1 and N-9381-248-1).

These permit units do not have any requirements under District Rule 2201 or any previous NSR rule. There are no NSR requirements that need to be changed to federally enforceable.

- e. Stainless Steel Wine Storage Tanks (N-9381-249-2 and N-9381-253-2).

Conditions 2 through 9 and 11 on these permits contain District Rule 2201 requirements and have been updated to indicate they are federally enforceable through the Title V permit.

3. **District Rule 2520, Federally Mandated Operating Permits**

District Rule 2520 requirements are applicable to facilities that are a Major Source of air pollutants. Rule 2520 includes administrative, monitoring, recordkeeping and reporting requirements for such sources. The general requirements of Rule 2520 were incorporated into the facility wide permit (N-9381-0-0) as conditions #5, #8 through #21, #26, #36 through #40, and #42 as part of Model General Template SJV-UM-0-3.

Source specific requirements for Rule 2520 are discussed below:

- a. Wine Fermentation and Storage Tanks and Wine and Distilled Spirits Storage Tanks (N-9381-1-1 through N-9381-248-1 and N-9381-249-2 through N-9381-253-2).

No source specific Rule 2520 requirements were necessary for the wine fermentation and storage tanks and the wine and distilled spirits storage tanks.

- b. Red and White Wine Fermentation and Storage Tanks (N-9381-254-1 through N-9381-260-1).

Condition 3 on the current permits for these units references Rule 2520. This condition required the applicant to submit an application for a Title V permit within 12 months. The facility submitted a TV application; therefore, the requirement is no longer necessary will not be included on the proposed permits.

No source specific Rule 2520 requirements were necessary for the wine fermentation and storage tanks.

4. **District Rule 4601, Architectural Coatings**

This rule is applicable to any person that supplies, markets, sells, offers for sale, applies, or solicits the application of any architectural coating, or who manufactures, blends, or repackages any architectural coating for use within the District. Model General Template SJV-UM-0-3 addresses the applicable requirements of District Rule 4601. However, the requirements in the template are based on the previous version of Rule 4601 (12/17/09). The following will be included in the facility wide requirements N-9381-0-0 as conditions #23, #24, and #25 to ensure compliance with the most recent revision of Rule 4601 (4/16/20), which is now SIP approved. :

- No person shall manufacture, blend, repackage, supply, market, sell, solicit or apply any architectural coating or colorant with a VOC content in excess of the applicable limits specified in Table 1 (Coatings) and Table 2 (Colorants) of District Rule 4601 (4/16/20), unless exempted under Section 4.0 of District Rule 4601 (4/16/20). [District Rule 4601]
- All VOC-containing materials subject to Rule 4601 (4/16/20) shall be stored in closed containers when not in use. [District Rule 4601]
- The permittee shall comply with all the Labeling and Test Methods requirements outlined in Rule 4601 Sections 6.1 and 6.3 (4/16/20). [District Rule 4601]

5. **District Rule 4623, Storage of Organic Liquids**

District Rule 4623 is applicable to any tank with a capacity of 1,100 gallons or greater in which an organic liquid is placed, held, or stored. Section 4.1.4 specifically exempts tanks used in wine fermentation and for storage of resulting products, by-products, and spirits. Therefore, the requirements of Rule 4623 do not apply to the tanks at this facility.

6. **District Rule 4694, Wine Fermentation and Storage Tanks**

District Rule 4694 is applicable to any winery fermenting wine and/or storing wine in bulk containers.

This facility is claiming the exemption under Section 4.1 for wineries with Baseline Fermentation Emissions (BFE) less than 10 tons per year. To determine BFE, the uncontrolled fermentation emissions for the years 2020, 2021 and 2022 are calculated.

$$\text{UFE} = \frac{(Q_{\text{red}} \times 6.2 \text{ lb-VOC} + Q_{\text{white}} \times 2.5 \text{ lb-VOC})}{1,000 \text{ gal} \times 2000 \text{ lb/ton}}$$

Where,

UFE is the calendar year fermentation emissions

Q_{red} is the quantity of red wine fermented

Q_{white} is the quantity of white wine fermented

Based on emissions inventory data submitted to the District UFE is calculated in the following table:

Year	Q_{red} (gal/year)	Q_{white} (gal/year)	UFE (ton/year)
2020	1,598,906	923,691	6.11
2021	2,087,159	534,815	7.14
2022	2,088,071	538,638	7.15

BFE is calculated is using the following equation

$$\begin{aligned} \text{BFE} &= \sum \text{UFE} \div \text{CY, where CY is the number of years} \\ &= (6.11 + 7.14 + 8.15) \div 3 \\ &= 6.80 \text{ ton/year} \end{aligned}$$

The calculation above confirms that the BFE is less than 10 tons per year for this facility and the exemption claim is valid. The exemption exempts the wine tanks from all of the requirements of District Rule 4694 except the recordkeeping requirements of Section 6.4.4. The following discusses the recordkeeping requirements of Section 6.4.4 for each permit unit. Additionally, the introductory paragraph of Section 6.4 requires the records kept in Section 6.4.4 to be kept for a minimum of five years.

- a. Red and White Wine Fermentation and Storage Tanks (N-9381-1-1 through N-9381-55-1, N-9381-57-1 through N-9381-159-1, and N-9381-161-1 through N-9381-242-1).

Conditions 3 and 4 on the current permits contain requirements from Rule 4694.

Condition 3 outlines the recordkeeping requirements from Section 6.4.4 and Condition 4 contains the five-year recordkeeping requirement of the introductory paragraph of Section 6.4. The introductory paragraph for Section 6.4 was approved as part of the SIP but Section 6.4.4 was not. Therefore, Condition 4 on the proposed permits will be updated to indicate it is federally enforceable and Condition 3 will remain as not federally enforceable.

b. Stainless Steel Wine Storage Tank (N-9381-56-1).

Condition 3 on the current permit (N-9381-56-2) contains a recordkeeping requirement from Section 6.4.2 2 of Rule 4694. However, this facility is claiming the exemption under Section 4.1 for wineries with a BFE less than 10 tons per year and is only subject to Section 6.4.4. Therefore, the following conditions will be included as conditions 3 and 5 on the proposed permit.

- Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
- All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

Condition 5 will be designated as federally enforceable because it the requirement comes from the SIP approved introductory paragraph of Section 6.4

c. Stainless Steel Distilled Spirit Storage Tank (N-9381-160-1).

Condition 4 on this permit contains requirements from the introductory paragraph of Section 6.4 of Rule 4694. This condition has been updated to reflect it is federally enforceable through the Title V permit.

d. Stainless Steel Wine Storage Tanks (N-9381-243-1 through N-9381-248-1).

Conditions 3 and 4 on these permits contain requirements from Rule 4694.

Condition 3 outlines the recordkeeping requirements from Section 6.4.4 and Condition 4 contains the five-year recordkeeping requirement of the introductory paragraph of Section 6.4. The introductory paragraph for Section 6.4 was approved as part of the SIP but Section 6.4.4 was not. Therefore, Condition 4 on these permits will be updated to indicate it is federally enforceable and Condition 3 will remain as not federally enforceable.

e. Stainless Steel Wine Storage Tanks (N-9381-249-2 through N-9381-253-2).

Condition 10 on the current PTOs (N-9381-249-0 through N-9381-253-0) contains requirements from paragraph 6.4.2 of Rule 4694. However, this facility is claiming the exemption under Section 4.1 for wineries with a BFE less than 10 tons per year and is only subject to Section 6.4.4. Therefore, the following condition will be included as condition 10 on the proposed permits:

- Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]

Condition 11 also contains the five-year requirement of the introductory section 6.4 from District Rule 4694. This condition was addressed in the District Rule 2201 discussion above.

- f. Red and White Wine Fermentation and Storage Tanks (N-9381-254-1 through N-9381-260-1).

Conditions 4 and 5 on the current permits contain requirements from Rule 4694 and will be included on the proposed permits as Conditions 3 and 4, respectively.

Condition 4 outlines the recordkeeping requirements from Section 6.4.4 and Condition 5 contains the five-year requirement of the introductory paragraph of Section 6.4. The introductory paragraph for Section 6.4 was approved as part of the SIP but Section 6.4.4 was not. Therefore, Condition 4 on these permits will be updated to indicate it is federally enforceable and Condition 3 will remain as not federally enforceable.

7. **40 CFR Part 64, Compliance Assurance Monitoring**

40 CFR Part 64 requires Compliance Assurance Monitoring for units that meet the following criteria:

- 1) The unit must have an emission limit for the pollutant;
- 2) The unit must have add-on controls for the pollutant; these are devices such as flue gas recirculation (FGR), baghouses, and catalytic oxidizers; and
- 3) The unit must have a pre-control potential to emit greater than the major source thresholds

Pollutant	Major Source Threshold (lb/year)
NO _x	20,000
SO _x	140,000
PM ₁₀	140,000
CO	200,000
VOC	20,000

All permit units (N-9381-1-1 through N-9381-260-1)

The facility is a Major Source for VOC. However, there are no units that have any add-on control devices. Therefore, none of the units at this facility are subject to CAM for VOC.

X. PERMIT SHIELD

A permit shield legally protects a facility from enforcement of the shielded regulations when a source is in compliance with the terms and conditions of the Title V permit. Compliance with the terms and conditions of the Operating Permit is considered compliance with all applicable requirements upon which those conditions are based, including those that have been subsumed.

A. Requirements Addressed by Model General Permit Templates

By using the model general permit template listed in Section IV of this evaluation, the applicant has requested that a permit shield be issued for requirements addressed in the template. The basis for each permit shield is discussed in the Permit Shield section of each template.

XI. PERMIT CONDITIONS

See draft operating permit beginning on the following page.

San Joaquin Valley Air Pollution Control District

FACILITY: N-9381-0-0

EXPIRATION DATE: 09/30/2027

FACILITY-WIDE REQUIREMENTS

1. The owner or operator shall notify the District of any breakdown condition as soon as reasonably possible, but no later than one hour after its detection, unless the owner or operator demonstrates to the District's satisfaction that the longer reporting period was necessary. [District Rule 1100, 6.1; County Rule 110 (San Joaquin)] Federally Enforceable Through Title V Permit
2. The District shall be notified in writing within ten days following the correction of any breakdown condition. The breakdown notification shall include a description of the equipment malfunction or failure, the date and cause of the initial failure, the estimated emissions in excess of those allowed, and the methods utilized to restore normal operations. [District Rule 1100, 7.0; County Rule 110 (San Joaquin)] Federally Enforceable Through Title V Permit
3. {4364} The owner or operator of any stationary source operation that emits more than 25 tons per year of nitrogen oxides or reactive organic compounds, shall provide the District annually with a written statement in such form and at such time as the District prescribes, showing actual emissions of nitrogen oxides and reactive organic compounds from that source. [District Rule 1160, 5.0] Federally Enforceable Through Title V Permit
4. {4365} Any person building, altering or replacing any operation, article, machine, equipment, or other contrivance, the use of which may cause the issuance of air contaminants or the use of which may eliminate, reduce, or control the issuance of air contaminants, shall first obtain an Authority to Construct (ATC) from the District unless exempted by District Rule 2020 (12/20/07). [District Rule 2010, 3.0 and 4.0; and 2020] Federally Enforceable Through Title V Permit
5. {4366} The permittee must comply with all conditions of the permit including permit revisions originated by the District. All terms and conditions of a permit that are required pursuant to the Clean Air Act (CAA), including provisions to limit potential to emit, are enforceable by the EPA and Citizens under the CAA. Any permit noncompliance constitutes a violation of the CAA and the District Rules and Regulations, and is grounds for enforcement action, for permit termination, revocation, reopening and reissuance, or modification; or for denial of a permit renewal application. [District Rules 2070, 7.0; 2080; and 2520, 9.8.1 and 9.13.1] Federally Enforceable Through Title V Permit
6. {4367} A Permit to Operate or an Authority to Construct shall not be transferred unless a new application is filed with and approved by the District. [District Rule 2031] Federally Enforceable Through Title V Permit
7. {4368} Every application for a permit required under Rule 2010 (12/17/92) shall be filed in a manner and form prescribed by the District. [District Rule 2040] Federally Enforceable Through Title V Permit
8. {4369} The operator shall maintain records of required monitoring that include: 1) the date, place, and time of sampling or measurement; 2) the date(s) analyses were performed; 3) the company or entity that performed the analysis; 4) the analytical techniques or methods used; 5) the results of such analysis; and 6) the operating conditions at the time of sampling or measurement. [District Rule 2520, 9.4.1] Federally Enforceable Through Title V Permit
9. {4370} The operator shall retain records of all required monitoring data and support information for a period of at least 5 years from the date of the monitoring sample, measurement, or report. Support information includes copies of all reports required by the permit and, for continuous monitoring instrumentation, all calibration and maintenance records and all original strip-chart recordings. [District Rule 2520, 9.4.2] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE

These terms and conditions are part of the Facility-wide Permit to Operate. Any amendments to these Facility-wide Requirements that affect specific Permit Units may constitute modification of those Permit Units.

Facility Name: OAK RIDGE WINERY LLC
Location: 6100 E HWY 12, LODI, CA 95240
N-9381-0-0 : Mar 30 2023 9:29AM -- PEREZK

10. {4371} The operator shall submit reports of any required monitoring at least every six months unless a different frequency is required by an applicable requirement. All instances of deviations from permit requirements must be clearly identified in such reports. [District Rule 2520, 9.5.1] Federally Enforceable Through Title V Permit
11. {4372} Deviations from permit conditions must be promptly reported, including deviations attributable to upset conditions, as defined in the permit. For the purpose of this condition, promptly means as soon as reasonably possible, but no later than 10 days after detection. The report shall include the probable cause of such deviations, and any corrective actions or preventive measures taken. All required reports must be certified by a responsible official consistent with section 10.0 of District Rule 2520 (6/21/01). [District Rules 2520, 9.5.2 and 1100, 7.0] Federally Enforceable Through Title V Permit
12. {4373} If for any reason a permit requirement or condition is being challenged for its constitutionality or validity by a court of competent jurisdiction, the outcome of such challenge shall not affect or invalidate the remainder of the conditions or requirements in that permit. [District Rule 2520, 9.7] Federally Enforceable Through Title V Permit
13. {4374} It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit. [District Rule 2520, 9.8.2] Federally Enforceable Through Title V Permit
14. {4375} The permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or a notification of planned changes or anticipated noncompliance does not stay any permit condition. [District Rule 2520, 9.8.3] Federally Enforceable Through Title V Permit
15. {4376} The permit does not convey any property rights of any sort, or any exclusive privilege. [District Rule 2520, 9.8.4] Federally Enforceable Through Title V Permit
16. {4377} The Permittee shall furnish to the District, within a reasonable time, any information that the District may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the District copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to EPA along with a claim of confidentiality. [District Rule 2520, 9.8.5] Federally Enforceable Through Title V Permit
17. {4378} The permittee shall pay annual permit fees and other applicable fees as prescribed in Regulation III of the District Rules and Regulations. [District Rule 2520, 9.9] Federally Enforceable Through Title V Permit
18. {4379} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to enter the permittee's premises where a permitted source is located or emissions related activity is conducted, or where records must be kept under condition of the permit. [District Rule 2520, 9.13.2.1] Federally Enforceable Through Title V Permit
19. {4380} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit. [District Rule 2520, 9.13.2.2] Federally Enforceable Through Title V Permit
20. {4381} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to inspect at reasonable times any facilities, equipment, practices, or operations regulated or required under the permit. [District Rule 2520, 9.13.2.3] Federally Enforceable Through Title V Permit
21. {4382} Upon presentation of appropriate credentials, a permittee shall allow an authorized representative of the District to sample or monitor, at reasonable times, substances or parameters for the purpose of assuring compliance with the permit or applicable requirements. [District Rule 2520, 9.13.2.4] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE
These terms and conditions are part of the Facility-wide Permit to Operate.

22. {4383} No air contaminants shall be discharged into the atmosphere for a period or periods aggregating more than 3 minutes in any one hour which is as dark or darker than Ringelmann #1 or equivalent to 20% opacity and greater, unless specifically exempted by District Rule 4101 (02/17/05). If the equipment or operation is subject to a more stringent visible emission standard as prescribed in a permit condition, the more stringent visible emission limit shall supersede this condition. [District Rule 4101, and County Rules 401 (in all eight counties in the San Joaquin Valley)] Federally Enforceable Through Title V Permit
23. No person shall manufacture, blend, repackage, supply, market, sell, solicit or apply any architectural coating or colorant with a VOC content in excess of the applicable limits specified in Table 1 (Coatings) and Table 2 (Colorants) of District Rule 4601 (4/16/20), unless exempted under Section 4.0 of District Rule 4601 (4/16/20). [District Rule 4601] Federally Enforceable Through Title V Permit
24. All VOC-containing materials subject to Rule 4601 (4/16/20) shall be stored in closed containers when not in use. [District Rule 4601] Federally Enforceable Through Title V Permit
25. The permittee shall comply with all the Labeling and Test Methods requirements outlined in Rule 4601 sections 6.1 and 6.3 (4/16/20). [District Rule 4601] Federally Enforceable Through Title V Permit
26. {4387} With each report or document submitted under a permit requirement or a request for information by the District or EPA, the permittee shall include a certification of truth, accuracy, and completeness by a responsible official. [District Rule 2520, 9.13.1 and 10.0] Federally Enforceable Through Title V Permit
27. {4388} If the permittee performs maintenance on, or services, repairs, or disposes of appliances, the permittee shall comply with the standards for Recycling and Emissions Reduction pursuant to 40 CFR Part 82, Subpart F. [40 CFR 82 Subpart F] Federally Enforceable Through Title V Permit
28. {4389} If the permittee performs service on motor vehicles when this service involves the ozone-depleting refrigerant in the motor vehicle air conditioner (MVAC), the permittee shall comply with the standards for Servicing of Motor Vehicle Air Conditioners pursuant to all the applicable requirements as specified in 40 CFR Part 82, Subpart B. [40 CFR Part 82, Subpart B] Federally Enforceable Through Title V Permit
29. {4390} Disturbances of soil related to any construction, demolition, excavation, extraction, or other earthmoving activities shall comply with the requirements for fugitive dust control in District Rule 8021 unless specifically exempted under Section 4.0 of Rule 8021 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8021] Federally Enforceable Through Title V Permit
30. {4391} Outdoor handling, storage and transport of any bulk material which emits dust shall comply with the requirements of District Rule 8031, unless specifically exempted under Section 4.0 of Rule 8031 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8031] Federally Enforceable Through Title V Permit
31. {4392} An owner/operator shall prevent or cleanup any carryout or trackout in accordance with the requirements of District Rule 8041 Section 5.0, unless specifically exempted under Section 4.0 of Rule 8041 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8041] Federally Enforceable Through Title V Permit
32. {4393} Whenever open areas are disturbed, or vehicles are used in open areas, the facility shall comply with the requirements of Section 5.0 of District Rule 8051, unless specifically exempted under Section 4.0 of Rule 8051 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8051] Federally Enforceable Through Title V Permit
33. {4394} Any paved road or unpaved road shall comply with the requirements of District Rule 8061 unless specifically exempted under Section 4.0 of Rule 8061 (8/19/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8061] Federally Enforceable Through Title V Permit

FACILITY-WIDE REQUIREMENTS CONTINUE ON NEXT PAGE
These terms and conditions are part of the Facility-wide Permit to Operate.

34. {4395} Any unpaved vehicle/equipment area that anticipates more than 50 Average annual daily Trips (AADT) shall comply with the requirements of Section 5.1.1 of District Rule 8071. Any unpaved vehicle/equipment area that anticipates more than 150 vehicle trips per day (VDT) shall comply with the requirements of Section 5.1.2 of District Rule 8071. On each day that 25 or more VDT with 3 or more axles will occur on an unpaved vehicle/equipment traffic area, the owner/operator shall comply with the requirements of Section 5.1.3 of District Rule 8071. On each day when a special event will result in 1,000 or more vehicles that will travel/park on an unpaved area, the owner/operator shall comply with the requirements of Section 5.1.4 of District Rule 8071. All sources shall comply with the requirements of Section 5.0 of District Rule 8071 unless specifically exempted under Section 4.0 of Rule 8071 (9/16/2004) or Rule 8011 (8/19/2004). [District Rules 8011 and 8071] Federally Enforceable Through Title V Permit
35. {4396} Any owner or operator of a demolition or renovation activity, as defined in 40 CFR 61.141, shall comply with the applicable inspection, notification, removal, and disposal procedures for asbestos containing materials as specified in 40 CFR 61.145 (Standard for Demolition and Renovation). [40 CFR 61 Subpart M] Federally Enforceable Through Title V Permit
36. {4397} The permittee shall submit certifications of compliance with the terms and standards contained in Title V permits, including emission limits, standards and work practices, to the District and the EPA annually (or more frequently as specified in an applicable requirement or as specified by the District). The certification shall include the identification of each permit term or condition, the compliance status, whether compliance was continuous or intermittent, the methods used for determining the compliance status, and any other facts required by the District to determine the compliance status of the source. [District Rule 2520, 9.16] Federally Enforceable Through Title V Permit
37. {4398} The permittee shall submit an application for Title V permit renewal to the District at least six months, but not greater than 18 months, prior to the permit expiration date. [District Rule 2520, 5.2] Federally Enforceable Through Title V Permit
38. {4399} When a term is not defined in a Title V permit condition, the definition in the rule cited as the origin and authority for the condition in a Title V permits shall apply. [District Rule 2520, 9.1.1] Federally Enforceable Through Title V Permit
39. Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following outdated SIP requirements: Rule 401 (San Joaquin), Rule 110 (San Joaquin), and Rule 202 (San Joaquin). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
40. {4401} Compliance with permit conditions in the Title V permit shall be deemed in compliance with the following applicable requirements: SJVUAPCD Rules 1100, sections 6.1 and 7.0 (12/17/92); 2010, sections 3.0 and 4.0 (12/17/92); 2031 (12/17/92); 2040 (12/17/92); 2070, section 7.0 (12/17/92); 2080 (12/17/92); 4101 (2/17/05); 4601 (12/17/09); 8021 (8/19/2004); 8031 (8/19/2004); 8041 (8/19/2004); 8051 (8/19/2004); 8061 (8/19/2004); and 8071 (9/16/2004). A permit shield is granted from these requirements. [District Rule 2520, 13.2] Federally Enforceable Through Title V Permit
41. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
42. On (DATE TBD), the initial Title V permit was issued. The reporting periods for the Report of Required Monitoring and the Compliance Certification Report begin May 1 of every year, unless alternative dates are approved by the District Compliance Division. These reports are due within 30 days after the end of the reporting period. These reports are due within 30 days after the end of the reporting period. [District Rule 2520] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-1-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

6,500 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST01)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-2-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

9,000 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST02)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-13-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

1,239 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0009)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

EQUIPMENT DESCRIPTION:

2,500 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0033)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

9,567 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0067)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-56-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

9,567 GALLON STAINLESS STEEL WINE STORAGE TANK (TANK #T0068) WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. No air contaminant shall be discharged into the atmosphere for a period or periods aggregating more than three minutes in any one hour which is as dark as, or darker than, Ringelmann 1 or 20% opacity. [District Rule 4101] Federally Enforceable Through Title V Permit
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. The ethanol content of wine stored in this tank shall not exceed 20.0 percent by volume. [District Rule 2201] Federally Enforceable Through Title V Permit
5. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

12,232 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0095)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-77-1

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-97-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

28,400 GALLON CONCRETE RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0184) WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOORS

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-202-1

WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-223-1

6,500 GALLON STAINLESS STEEL WINE STORAGE TANK (TANK #TB001) WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-244-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

6,500 GALLON STAINLESS STEEL WINE STORAGE TANK (TANK #TB002) WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT: N-9381-249-2

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

21,838 GALLON NOMINAL (21,838 GALLON GAUGE) STAINLESS STEEL WINE STORAGE TANK (TANK #806) WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This tank shall be used exclusively for wine storage operations only and not for fermentation. [District Rule 2201] Federally Enforceable Through Title V Permit
3. This tank shall be equipped with and operated with a pressure-vacuum relief valve, which shall operate within 10% of the maximum allowable working pressure of the tank, operate in accordance with the manufacturer's instructions, and be permanently labeled with the operating pressure settings. [District Rules 2201 and 4694] Federally Enforceable Through Title V Permit
4. The pressure-vacuum relief valve and storage tank shall remain in a gas-tight condition, except when the operating pressure of the tank exceeds the valve set pressure. A gas-tight condition shall be determined by measuring the gas leak in accordance with the procedures in EPA Method 21. [District Rules 2201 and 4694] Federally Enforceable Through Title V Permit
5. The temperature of the wine stored in this tank shall be maintained at or below 75 degrees Fahrenheit. The temperature of the stored wine shall be determined and recorded at least once per week. [District Rules 2201 and 4694] Federally Enforceable Through Title V Permit
6. The ethanol content of wine stored in this tank shall not exceed 18.0 percent by volume. [District Rule 2201] Federally Enforceable Through Title V Permit
7. Wine storage throughput in this tank shall not exceed any of the following: 21,838 gallons per day and 1,135,576 gallons per year. [District Rule 2201] Federally Enforceable Through Title V Permit
8. Daily throughput records, including records of filling and emptying operations, the dates of such operations, a unique identifier for each batch, the volume percent ethanol in the batch, and the volume of wine transferred, shall be maintained. [District Rules 2201 and 4694] Federally Enforceable Through Title V Permit
9. The operator shall maintain records of annual throughput of wine. These records shall be updated at least on a monthly basis. [District Rule 2201] Federally Enforceable Through Title V Permit
10. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
11. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070, 2201 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694] Federally Enforceable Through Title V Permit

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-259-1

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

31,788 GALLON CONCRETE LINED WITH STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T214) WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOORS

PERMIT UNIT REQUIREMENTS

1. {98} No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. {3658} This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]

Attachment B

Exempt Equipment

San Joaquin Valley Unified Air Pollution Control District Title V Application - INSIGNIFICANT ACTIVITIES

COMPANY NAME: Oak Ridge Winery, LLC

FACILITY ID: N - 9381

Check the box next to the exemption category from Rule 2020 which describes any insignificant activity or equipment at your facility not requiring a permit.

Exemption Category	Rule 2020 Citation	√	Exemption Category	Rule 2020 Citation	√
Structure or incinerator assoc. with a structure designed as a dwelling for 4 families or less	4.1		Containers used to store refined lubricating oils	6.6.8	
Locomotives, airplanes, and watercraft used to transport passengers or freight	4.4		Unvented pressure vessels used exclusively to store liquified gases or assoc with exempt equipment	6.6.9 or 6.13	x
Natural gas or LPG-fired boilers or other indirect heat transfer units of 5 MMBtu/hr or less	6.1.1	x	Portable tanks used exclusively to store produced fluids for ≤ six months	6.6.10	
Piston-type i.c.engine with maximum continuous rating of 50 braking horsepower (bhp) or less	6.1.2	x	Mobile transport tanks on delivery vehicles of VOCs	6.6.11	
Gas turbine engines with maximum heat input rating of 3 MMBtu/hr or less	6.1.3		Loading racks used for the transfer of less than 4,000 gal/day of unheated organic material with initial boiling point ≥ 302 F or of fuel oil with specific gravity ≥ 0.8251	6.7.1.1	
Space heating equipment other than boilers	6.1.4	x	Loading racks used for the transfer of asphalt, crude or residual oil stored in exempt tanks, or crude oil with specific gravity ≥ 0.8762	6.7.1.2	
Cooling towers with a circulation rate less than 10,000 gal/min, and that are not used for cooling of process water, or water from barometric jets or condensers++	6.2	x	Equipment used exclusively for the transfer of refined lubricating oil	6.7.2	
Use of less than 2 gal/day of graphic arts materials	6.3		Equipment used to apply architectural coatings	6.8.1	x
Equipment at retail establishments used to prepare food for human consumption	6.4.1		Unheated, non-conveyorized cleaning equipment with < 10 ft² open area; using solvents with initial boiling point ≥ 248 F; and < 25 gal/yr. evaporative losses	6.9	
Ovens at bakeries with total daily production less than 1,000 pounds and exempt by sec. 6.1.1	6.4.3		Brazing, soldering, or welding equipment	6.10	x
Equipment used exclusively for extruding or compression molding of rubber or plastics, where no plastisizer or blowing agent is used	6.5		Equipment used to compress natural gas	6.11	
Containers used to store clean produced water	6.6.1		Fugitive emissions sources assoc. with exempt equipment	6.12	
Containers ≤ 100 bbl used to store oil with specific gravity ≥ 0.8762	6.6.2		Pits and Ponds as defined in Rule 1020	6.15	
Containers ≤ 100 bbl installed prior to 6/1/89 used to store oil with specific gravity ≥ 0.8762	6.6.3		On-site roadmix manufacturing and the application of roadmix as a road base material	6.17	
Containers with a capacity ≤ 250 gallons used to store organic material where the actual storage temperature < 150 F	6.6.4		Emissions less than 2 lb/day from units not included above	6.19	x
Containers used to store unheated organic material with an initial boiling point ≥ 302 F	6.6.5		Venting PUC quality natural gas from for sole purpose of pipeline and compressor repair and or maintenance	7.2	
Containers used to store fuel oils or non-air-blown asphalt with specific gravity ≥ 0.9042	6.6.6		Non-structural repairs & maintenance to permitted equipment	7.3	x
Containers used to store petroleum distillates used as motor fuel with specific gravity ≥ 0.8251	6.6.7		Detonation of explosives ≤ 100 lb/day and 1,000 lb/year	7.4	

☐ No insignificant activities (Check this box if no equipment in the above categories exist at your facility.)

Attachment C

Current District PTOs And ATCs

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-1-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

6,500 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST01)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-2-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

9,000 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST02)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-3-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

1,147 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST03)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-4-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

9,880 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #ST04)
WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOOR

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-5-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

6,400 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0001)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-17-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-39-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

31,788 GALLON CONCRETE RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0191) WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOORS

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-105-0

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-170-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

99,141 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0413)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

19,321 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0435)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-235-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

6,800 GALLON STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T0815)
WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
4. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

EQUIPMENT DESCRIPTION:

21,838 GALLON NOMINAL (21,838 GALLON GAUGE) STAINLESS STEEL WINE STORAGE TANK (TANK #806) WITH PRESSURE/VACUUM VALVE AND INSULATION

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This tank shall be used exclusively for wine storage operations only and not for fermentation. [District Rule 2201]
3. This tank shall be equipped with and operated with a pressure-vacuum relief valve, which shall operate within 10% of the maximum allowable working pressure of the tank, operate in accordance with the manufacturer's instructions, and be permanently labeled with the operating pressure settings. [District Rules 2201 and 4694]
4. The pressure-vacuum relief valve and storage tank shall remain in a gas-tight condition, except when the operating pressure of the tank exceeds the valve set pressure. A gas-tight condition shall be determined by measuring the gas leak in accordance with the procedures in EPA Method 21. [District Rules 2201 and 4694]
5. The temperature of the wine stored in this tank shall be maintained at or below 75 degrees Fahrenheit. The temperature of the stored wine shall be determined and recorded at least once per week. [District Rules 2201 and 4694]
6. The ethanol content of wine stored in this tank shall not exceed 18.0 percent by volume. [District Rule 2201]
7. Wine storage throughput in this tank shall not exceed any of the following: 21,838 gallons per day and 1,135,576 gallons per year. [District Rule 2201]
8. Daily throughput records, including records of filling and emptying operations, the dates of such operations, a unique identifier for each batch, the volume percent ethanol in the batch, and the volume of wine transferred, shall be maintained. [District Rules 2201 and 4694]
9. The operator shall maintain records of annual throughput of wine. These records shall be updated at least on a monthly basis. [District Rule 2201]
10. The operator shall record, on a weekly basis, the total gallons of wine contained in the tank and the maximum temperature of the stored wine. [District Rule 4694]
11. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070, 2201 and 4694]

4. The pressure-vacuum relief valve and storage tank shall remain in a gas-tight condition, except when the operating pressure of the tank exceeds the valve set pressure. A gas-tight condition shall be determined by measuring the gas leak in accordance with the procedures in EPA Method 21. [District Rules 2201 and 4694]
5. The temperature of the wine stored in this tank shall be maintained at or below 75 degrees Fahrenheit. The temperature of the stored wine shall be determined and recorded at least once per week. [District Rules 2201 and 4694]
6. The ethanol content of wine stored in this tank shall not exceed 18.0 percent by volume. [District Rule 2201]
7. Wine storage throughput in this tank shall not exceed any of the following: 21,838 gallons per day and 1,135,576 gallons per year. [District Rule 2201]
8. Daily throughput records, including records of filling and emptying operations, the dates of such operations, a unique identifier for each batch, the volume percent ethanol in the batch, and the volume of wine transferred, shall be maintained. [District Rules 2201 and 4694]
9. The operator shall maintain records of annual throughput of wine. These records shall be updated at least on a monthly basis. [District Rule 2201]
10. The operator shall record, on a weekly basis, the total gallons of wine contained in the tank and the maximum temperature of the stored wine. [District Rule 4694]
11. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070, 2201 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.

San Joaquin Valley Air Pollution Control District

PERMIT UNIT: N-9381-254-0

EXPIRATION DATE: 09/30/2027

EQUIPMENT DESCRIPTION:

31,788 GALLON CONCRETE LINED WITH STAINLESS STEEL RED AND WHITE WINE FERMENTATION AND STORAGE TANK (TANK #T204) WITH PRESSURE/VACUUM VALVE, NON-INSULATED LOCATED OUTDOORS

PERMIT UNIT REQUIREMENTS

1. No air contaminant shall be released into the atmosphere which causes a public nuisance. [District Rule 4102]
2. This permit does not authorize the violation of any conditions established for this facility in the Conditional Use Permit (CUP), Special Use Permit (SUP), Site Approval, Site Plan Review (SPR), or other approval documents issued by a local, state, or federal agency. [Public Resources Code 21000-21177: California Environmental Quality Act]
3. Within 12 months from the date of the issuance of this Permit to Operate, the permittee shall either submit an application to comply with Rule 2520 (Federally Mandated Operating Permits) or shall comply with District Rule 2530 (Federally Enforceable Potential to Emit). If the facility chooses the option to comply with District Rule 2530, the facility shall notify the District by submitting a request to include the District Rule 2530 conditions on their permits to operate prior to the 12-month deadline. [District Rule 2520]
4. Permittee shall maintain annual records of the total gallons of red wine fermented at the winery and the total gallons of white wine fermented at the winery, and the total gallons of wine in storage tanks. Records submitted to the United States Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau for the purposes of tax determination shall be adequate, provided the operator indicates the volumes of red and white wines fermented. [District Rule 4694]
5. All records shall be retained on-site for a period of at least five years and made available for District inspection upon request. [District Rules 1070 and 4694]

These terms and conditions are part of the Facility-wide Permit to Operate.
