

San Joaquin Valley Unified Air Pollution Control District

NOTICE OF PUBLIC REVIEW PERIOD FOR THE 2005 EDITION OF THE AIR QUALITY  
GUIDELINES FOR GENERAL PLANS

NOTICE IS HEREBY GIVEN that the San Joaquin Valley Unified Air Pollution Control District's (District) 2005 Edition of the *Air Quality Guidelines for General Plans (AQGGP)* will be available for public review and comment.

The District Governing Board approved the *AQGGP* on October 20, 1994. The *AQGGP*, a guidance document for cities and counties, was developed to encourage cities and counties to include air quality elements or air quality goals and policies in general plans in order to reduce mobile and area source emissions and help attain state and federal air quality standards. Although the structure and overall purpose of the *AQGGP* remains unchanged, the 2005 Edition of the *AQGGP* incorporates shifts in regulations, science, and practices that have occurred in the San Joaquin Valley since the 1994 edition. The 2005 Edition of the *AQGGP* will assist San Joaquin Valley cities and counties as they work to meet the requirements of AB 170 (2003, Reyes)/Government Code Section 65302.1, which requires cities and counties in the San Joaquin Valley Air Basin to amend their general plans to include goals, policies, and feasible implementation strategies to improve air quality.

The 2005 Edition of the *AQGGP* is obtainable online under "Public Notices" at <[http://www.valleyair.org/notices/public\\_notices\\_idx.htm](http://www.valleyair.org/notices/public_notices_idx.htm)>. A copy in PDF format on CD is available for \$7 for pick-up or \$9 delivered.
