

San Joaquin Valley  
Air Pollution Control District

**PUBLIC NOTICE OF AVAILABILITY  
PROPOSED NEGATIVE DECLARATION**

September 1, 2005

**Project Title:** Amendments to *2004 Extreme Ozone Attainment Demonstration Plan*

**Project Location:** All land within the boundaries of the San Joaquin Valley Unified Air Pollution Control District, including the entire counties and all the cities of Fresno, Kings, Madera, Merced, Tulare, San Joaquin, Stanislaus, and the San Joaquin Valley portion of Kern County

**Description of Project:**

The *2004 Extreme Ozone Attainment Demonstration (EOADP)* is the District's strategy for achieving the 1-hour Ozone National Ambient Air Quality Standards (NAAQS). Although, the U.S. Environmental Protection Agency (EPA) has revoked the federal 1-hour ozone standards, the District must still fulfill planning and other requirements tied to the now revoked standards. EPA must act on the *EOADP* by May 15, 2006.

The District is proposing to amend the *2004 Extreme Ozone Attainment Demonstration Plan* to update two chapters: "Chapter 4: Control Strategy" and "Chapter 8: California Clean Air Act Triennial Progress Report and Plan Revision". The update will revise the control measure schedules to be consistent with the *2005 Amendments to the 2003 PM10 Plan*, reflect the current rulemaking schedule, and correct minor typographical errors. The proposed amendments will allow EPA to proceed with processing the *EOADP*. The amendments to "Chapter 8: California Clean Air Act Triennial Progress Report and Plan Revision" is a separate, stand-alone state requirement that is being revised only to provide consistency with Chapter 4 and will not be considered by EPA as part of the approvals into the State Implementation Plan.
