

## ANNOUNCEMENT

The California Air Resources Board announced today that it is postponing all workshops on the California Clean Air Plan scheduled for the first week of April. ARB will hold a series of workshops to solicit public comments on the proposed Clean Air Plan. There will be a four-day technical workshop as well as a series of community workshops to discuss the Plan. Two community workshops were scheduled in the San Joaquin Valley for Monday afternoon and evening, April 8, 2002. The workshops were originally scheduled for the first two weeks of April 2002, but now have been postponed to allow additional time for public review of the Clean Air Plan. The four-day technical workshop is tentatively rescheduled for the week of April 29 or May 6. ARB will post information regarding the exact revised dates, times, and agenda as soon as possible at its website: <http://www.arb.ca.gov/planning/caplan/caplan.htm>.
