

RULE 7011 CHROMIUM PLATING AND CHROMIC ACID ANODIZING FACILITIES
(Adopted May 16, 1991; Amended December 17, 1992; Amended August 19, 1999; Amended January 17, 2008)

1.0 Purpose

This rule incorporates the Airborne Toxic Control Measure for Chromium Plating and Chromic Acid Anodizing from the California Code of Regulations (CCR) Sections 93102 through 93102.16.

2.0 Applicability

This rule applies to the following:

- 2.1 The owner or operator of any facility performing hard chromium electroplating, decorative chromium electroplating, or chromic acid anodizing.
- 2.2 Any person who sells, supplies, offers for sale, uses, or manufactures for sale in California a chromium electroplating or chromic acid anodizing kit.

3.0 Definitions

- 3.1 Permitting agency: the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD), as used in CCR Sections 93102 through 93102.16.
- 3.2 Add-on air pollution control device: equipment installed in the ventilation system of chromium electroplating and anodizing tanks for the purposes of collecting and containing chromium emissions from the tank(s).

4.0 Requirements

The provisions of the Airborne Toxic Control Measure for Chromium Plating and Chromic Acid Anodizing Facilities contained in CCR Sections 93102 through 93102.16 in effect as of October 24, 2007 are hereby adopted by reference and made a part hereof.

5.0 Administrative Requirements

5.1 Compliance Plan.

- 5.1.1 All existing facilities that will comply with the requirements in CCR Section 93102.4(b) on a compliance date after April 24, 2008 shall submit a compliance plan to the SJVUAPCD Air Pollution Control Officer (APCO) of the by April 24, 2008. In this compliance plan, the facility shall provide the following information:

5.1.1.1 A list of all measures that will be used to comply with CCR Section 93102.4(b),

5.1.1.2 A schedule by which each measure will be implemented, and

5.1.1.3 A date by which the performance test will be performed.

5.2 Application for an Authority to Construct.

5.2.1 All existing facilities that will comply with the requirements in CCR Section 93102.4(b) by using an approved chemical fume suppressant and accepting limits on annual ampere-hour usage shall submit an application for an Authority to Construct and be in full compliance by April 24, 2008.

5.2.2 All existing facilities that will comply with the requirements in CCR Section 93102.4(b) by using an add-on control device or an alternative method by a compliance date later than April 24, 2008 shall submit an application for an Authority to Construct at least one year prior to the applicable compliance date.

5.3 Reporting and Recordkeeping

All reports identified in CCR Section 93102.13 shall be submitted to the APCO.
