Appendix O  TPA Conformity Support
Mr. Dave Crow  
Executive Director/APCO  
San Joaquin Valley Air Pollution Control District  
1990 E. Gettysburg Avenue  
Fresno, CA 93726-0244

Dear Mr. Crow:

The San Joaquin Valley Regional Transportation Planning Agencies have been working cooperatively with the San Joaquin Valley Air Pollution Control District and California Air Resources Board to develop conformity budgets for the San Joaquin Valley 2003 PM-10 Plan.

Section 93.124 of the federal conformity rule, in particular 93.124(c), allows for the SIP to establish trading mechanisms between budgets for pollutants or precursors, or among budgets allocated to mobile and other sources. This SIP allows trading from the motor vehicle emissions budget for the PM-10 precursor NOx to the motor vehicle emissions budget for primary PM-10 using a 1.5 to 1 ratio. The trading mechanism will allow the agencies responsible for demonstrating transportation conformity in the San Joaquin Valley to supplement the 2010 budget for PM-10 with a portion of the 2010 budget for NOx, and use these adjusted motor vehicle emissions budgets for PM-10 and NOx to demonstrate transportation conformity with the PM-10 SIP for analysis years after 2010.

The San Joaquin Valley Transportation Planning Agencies will clearly document the calculations used in the trading, along with any additional reductions of NOx or PM10 emissions in transportation conformity demonstrations. In addition, in light of the role that growth in travel plays in PM10 emissions in the Valley, the San Joaquin Valley COG Directors commit to conduct feasibility analyses as part of each new Regional Transportation Plan, excluding revisions (i.e., amendments). The analysis will identify and evaluate potential control measures that could be included in the Regional Transportation Plans. Any additional PM-10 or NOx reductions achieved in the RTPs shall be credited in the transportation conformity demonstration. Reductions achieved after 2010 shall be credited prior to implementing the trading mechanism.

The San Joaquin Valley Transportation Planning Agencies appreciate being included as a stakeholder during the development of the Draft 2003 PM-10 Plan. If you have any questions or need additional

Member Agencies: The cities of Clovis, Coalinga, Firebaugh, Fowler, Fresno, Huron, Kerman, Kingsburg, Mendota, Orange Cove, Parlier, Reedley, San Joaquin, Sanger, Selma & Fresno County
