CERTIFICATIONS FORM

By signing this Certifications form, I certify that I have read and understand the Eligibility Criteria and Application Guidelines document and agree to adhere to its requirements. Additionally, by signing this Certifications form, I certify to the statements and agree to adhere to the terms and conditions described below:

1. The emission reductions obtained through this program are **not** required by any federal, state, or local regulation, memorandum of agreement/understanding (MOA/MOU) with a regulatory agency, settlement agreement, mitigation requirement, or other legal mandate.
2. Projects funded by SJVAPCD will not be used as marketable emission reduction credits, to offset any emission reduction obligation, or for credit under any federal or state emission averaging, banking and trading program. In addition, projects funded through this program may not be used to generate a compliance extension or extra credit for determining regulatory compliance.
3. Proposed project has not received funding or is not under agreement with any other air district, CARB, or any other public agency. Any current financial incentive that directly reduces the project cost; including tax credits or deductions, grants, or other public financial assistance for the same engine or equipment; must be disclosed to the SJVAPCD.
4. I certify under penalty of perjury that I will not accept a grant from any other local, state or federal agency, including any funding from the Natural Resources Conservation Service (NRCS), for the equipment on this application.
5. I certify that I am currently in compliance with all federal, State, and local air quality rules and regulations and I am not aware of any outstanding or pending enforcement actions.
6. The new replacement engine will be domiciled within the boundaries of the SJVAPCD and will be operated at least seventy-five percent (75%) of the engine's annual hours of operation within SJVAPCD boundaries.
7. I will comply with the reporting requirements and keep appropriate records through the full term of the agreement of the project, as determined by the SJVAPCD and CARB.
8. The maximum eligible incentive amount is based on the cost of the new diesel engine. Funding will cover 85 percent of the eligible cost of the new engine, funding is **not to exceed 85 percent of eligible costs**. The maximum eligible incentive amount is calculated up to the cost-effectiveness limit, and may not necessarily reflect the maximum funding amount. Additionally, the incentive amount may be reduced after the claim for payment has been finalized, depending on all eligible items invoiced.
9. I hereby certify that all information provided in this application and any attachments are true and correct to the best of my knowledge.
10. I agree not to purchase, make a payment towards, and/or take possession of the replacement equipment prior to receiving an executed contract from the SJVAPCD.
