Shannon Moore presented the staff report.

ARDAGH has requested a short variance from the applicable requirements of District Rules 2070, 2201, 2520, 4101, 4354, and California Health and Safety Code (CH&SC) section 41701 in addition to the applicable conditions of the subject permits. The requested short variance would be for a consecutive 144-hour period to occur sometime between January 24, 2026, and February 1, 2026, inclusive. If granted, the variance would allow the continued operation of the glass melting furnace, and continued glass production in idle mode, with excess visible emissions while ARDAGH shuts down the ECS to upgrade the PLC and Control Software.
