CERTIFICATIONS FORM

By signing this Certifications form, I certify that I have read and understand the Eligibility Criteria and Application Guidelines document and agree to adhere to its requirements. Additionally, by signing this Certifications form, I certify to the statements and agree to adhere to the terms and conditions described below:

1. The emission reductions obtained through this program are **not** required by any federal, state, or local regulation, memorandum of agreement/understanding (MOA/MOU) with a regulatory agency, settlement agreement, mitigation requirement, or other legal mandate.
2. Projects funded by SJVAPCD will not be used as marketable emission reduction credits, to offset any emission reduction obligation, or for credit under any federal or state emission averaging, banking and trading program. In addition, projects funded through this program may not be used to generate a compliance extension or extra credit for determining regulatory compliance.
3. Proposed project has not received funding or is not under agreement with any other air district, CARB, or any other public agency. Any current financial incentive that directly reduces the project cost; including tax credits or deductions, grants, or other public financial assistance for the same engine or equipment; must be disclosed to the SJVAPCD.
4. I certify under penalty of perjury that I will not accept a grant from any other local, state or federal agency, including any funding from the Natural Resources Conservation Service (NRCS), for the equipment on this application.
5. I certify that I am currently in compliance with all federal, State, and local air quality rules and regulations and I am not aware of any outstanding or pending enforcement actions.
6. The new replacement engine will be domiciled within the boundaries of the SJVAPCD and will be operated at least seventy-five percent (75%) of the engine's annual hours of operation within SJVAPCD boundaries.
7. I will comply with the reporting requirements and keep appropriate records through the full term of the agreement of the project, as determined by the SJVAPCD and CARB.
8. The maximum eligible incentive amount is based on the cost of the new diesel engine. Funding will cover 85 percent of the eligible cost of the new engine, funding is **not to exceed 85 percent of eligible costs**. The maximum eligible incentive amount is calculated up to the cost-effectiveness limit, and may not necessarily reflect the maximum funding amount. Additionally, the incentive amount may be reduced after the claim for payment has been finalized, depending on all eligible items invoiced.
9. I hereby certify that all information provided in this application and any attachments are true and correct to the best of my knowledge.
10. **I agree not to purchase, make a payment towards, and/or take possession of the replacement equipment prior to receiving an executed contract from the SJVAPCD.**

SJVAPCD Disclosure of Funds

Identification of Potential Co-Funding

Heavy-Duty Program Off-Road Component

To be eligible to receive incentive funding from the San Joaquin Valley Air Pollution Control District (SJVAPCD), you **must** indicate below if you have applied for or received funding from any other sources for this project. You must also indicate if you intend to apply for additional funding from other sources in the future for this project. Examples of additional funding sources include, but are not limited to, the USDA EQIP, California Air Resources Board Peaker Offset Program, and private sources. Additionally, you are required to disclose the value of any current financial incentive that directly reduces the project cost, including tax credits or deductions, grants, or other public financial assistance for the same engine.

Information provided on this form may be shared as required by federal, state, and local laws. Any owner, designee, or other third party who is found to have submitted multiple applications or signed multiple contracts for this same specific project without proper disclosure shall be disqualified from funding for that project from all sources within the control of the SJVAPCD, other air districts, or CARB.

NOTE: Applying for funding from other sources for this project does not necessarily preclude you from applying for funding from the SJVAPCD.

Applicant certifies (please check one):

Yes, I **HAVE** applied for funding from other sources. List applicable Source, Program and Project/Reference Number(s).

Indicate Funding amount \$ _____

No, I **HAVE NOT** applied and **WILL NOT** apply for funding from other sources.

Please list here any current financial incentive(s) you have received which directly reduces the project cost:

4. Do you have an Authority to Construct (ATC) permit for the new engine? <input type="checkbox"/> Yes, this Supplemental Permit Application Form is complete. <input type="checkbox"/> No. (Please note that a permit application-filing fee will be required for each new engine. Permit Services will contact you prior to processing the permit application(s)).

APPLICATION PACKET CHECKLIST

This application is limited to the repower of one new reduced-emission replacement engine. Please complete a separate application for each new replacement engine you intend to purchase. When submitting a project for consideration, submit a **complete** application packet. An incomplete application packet will lengthen the application processing time and delay possible incentive funding. A complete application packet includes the following items:

- Completed **Application**, all seven (7) pages, which include the following:
 - ❖ If applicable, completed **Third Party Information** section (page 3).
 - ❖ Completed **Certifications** section, page four (4), signed and dated.
 - ❖ Completed **Disclosure of Funds** section, page five (5), signed and dated.
- First page of IRS Request for Taxpayer Identification Number and Certification Form (**Form W-9**).
- Dated and itemized dealer **quote** for the new reduced-emission engine and eligible equipment. The quote must, at a minimum, include the following:
 - ❖ The applicant/organization name and address. (Must match the information in Section 1 of this application)
 - ❖ The engine dealer name and address.
 - ❖ The engine make, model, horsepower and EPA-Certified Engine Family Name.
 - ❖ A complete and detailed breakdown of all costs: new reduced-emission engine, additional equipment and materials, installation labor (including the total estimated labor hours and labor rate per hour for the project, but excluding any well work or irrigation plumbing), and sales tax with the percentage indicated (if applicable, indicate whether the sales tax is at an agricultural tax rate). Please list all additional equipment and materials separately in a line item format.
- For applicants who are municipalities, a copy of the **Board Resolution** which approves participation in the District's incentive program must be submitted.
- Completed **Supplemental Permit Application Information Form**.

Please return all completed applications to:
