Project Title: Chevron USA, Inc. – Thermally Enhanced Oil Recovery (TEOR) Well Operation, Project No. S-1101684

Project Location: The project is located in Section 29 of Township 26S and Range 21E. This location is within the boundaries of the existing Lost Hills Oilfield in Kern County.

Lat:  Long:  OR  Sec:  29  Twn & Dir:  26 S  Ran & Dir  21 E

Project Description: Chevron USA proposes to install 130 thermally enhanced oil production wells in its Lost Hills production field. The Lost Hills Oilfield boundary consists of 31.25 square miles. The wells will be a combination of subjecting existing wells to steam, which does not currently occur, and drilling of new wells that will also be completed in the thermally enhanced production zone. The eighty (80) new wells will be operated as free flowing cyclic steam enhanced oil wells. The fifty (50) existing wells will be operated as conventional steam enhanced oil wells, retaining their subsurface pumps and surface pumping jacks. There are no plans to steam the well bores of the existing wells, which may benefit from the steam injected into the well bores of the new wells.
