County:	Fresno	
Address:	2221 Kern Street Fresno, CA 93721	P.O. Box 3044 Sacramento, CA 95812-3044
Phone:	(559) 600-2575	(916) 445-0613

From:	San Joaquin Valley Unified Air Pollution Control District	Lead Agency (If different from sender)
Address:	1990 E. Gettysburg Ave. Fresno, CA 93726-0244	
Contact:	Mark Montelongo	
Phone:	(559) 230-6000	

SUBJECT: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number: (if submitted to State Clearinghouse): 2018092003

Project Title: 2018 PM2.5 Attainment Plan

Project Location: The 2018 PM2.5 Attainment Plan applies to all Counties within the San Joaquin Valley Air Basin (Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare).

Project Description: The 2018 PM2.5 Attainment Plan presents the San Joaquin Valley Air Pollution Control District's strategy for achieving attainment for the 1997 PM2.5 Standard (24-hour 35 µg/m³), and the 2012 PM2.5 Standard (annual 12 µg/m³) as identified under the federal Clean Air Act.

For this Plan, the California Air Resources Board (CARB) is committing to achieve significant mobile source reductions through regulatory measures and incentive funding. The Plan includes commitments by the District to amend existing regulations to achieve greater emission reductions from flaring activities, internal combustion engines, boilers/steam generators, glass melting furnaces, and agricultural operations. Control measures under consideration from such amendments to existing regulations in the Plan include: additional ultra-low NOx flare emission limitations for existing and new flaring activities, flare minimization to the extent such controls are technologically achievable and economically feasible, lower NOx limits for boilers/steam generator/process heaters, lower NOx limits for municipal solid waste-fired boilers/generators/process heaters, lower NOx limits for container glass furnaces, new enhanced conservation management practices to reduce fugitive dust from cropland tilling and fallow lands, controls for commercial underfired charbroilers, lower NOx limits for non-agricultural IC engines, and implementation of a more stringent wood burning curtailment program. Additionally, in combination with the control measures discussed above, voluntary participation in District incentive programs will achieve additional emission reductions from residential wood combustion, agricultural internal combustion engines, and commercial cooking operations.

This is to advise that the San Joaquin Valley Unified Air Pollution Control District, acting as a Lead Agency or Responsible Agency has approved the above described project and has made the following determinations regarding the above described project:

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [was was not] adopted for this project.
5. A statement of Overriding Considerations [was was not] adopted for this project.
6. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the District's Findings, Final EIR, or Final Negative Declaration, record of project approval, is available to the General Public at: San Joaquin Valley APCD, 1990 E. Gettysburg Street, Fresno, CA
