## **Air quality event in Fresno June 11**

*Free Healthy Air Living Chat includes drawing for lawn mower*

One lucky attendee at the free June 11 Healthy Air Living Chat in Fresno will walk away with a brand new electric lawn mower.

The family-friendly event will be held from 6-8 p.m. at the Fellowship Hall of the First Congregational Church in the Fresno High neighborhood (the "Big Red Church"). It's an opportunity to hear about new developments in the ongoing mission to clean up the Valley's air. Admission is free, light refreshments will be served, and a drawing will be held for a Neuton electric lawn mower, the same model offered in the Air District's Clean Green Yard Machines lawn mower trade-in program.

The Fresno event is one of 15 Healthy Air Living Chats scheduled throughout the eight-county air basin this summer.

"Come to this event and you'll learn about easy ways to make big improvements in air quality," said Jaime Holt, the District's chief communications officer.

The focus of the event is offering tools and tips for Valley residents to make small changes in their everyday activities that can lead to better air quality. Healthy Air Living is a year-round program aimed at reducing emissions by making air quality a factor in daily decision-making by Valley residents, businesses and organizations. The District sponsors a variety of events and activities to support Healthy Air Living.

The First Congregational Church of Fresno is at 2131 N. Van Ness in Fresno. For more information about this event, call the Air District at 559-230-6000. More information is also available at [www.healthyairliving.com](http://www.healthyairliving.com).

The Valley Air District covers eight counties including San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare and the Valley air basin portion of Kern. Visit [www.valleyair.org](http://www.valleyair.org) to learn more.
